Conference on Performance and Data in Transportation Decision Making

September 15-18, 2019
Atlanta, Georgia
Omni Hotel at CNN Center

Organized by

Transportation Research Board

Sponsoring TRB Committees

Committee on Statewide Multimodal Transportation Planning (ADA10)
Committee on Metropolitan Policy, Planning, and Processes (ADA20)
Committee on Transportation Programming and Investment Decision-Making (ADA50)
Task Force on Data for Decisions and Performance Measures (A0030T)
Committee on Performance Management (ABC30)
Committee on Transportation Asset Management (ABC40)
Committee on Transit Management and Performance (AP010)

In Partnership with

American Association of State Highway and Transportation Officials (AASHTO)

Atlanta

Welcome to the TRB Conference on Performance and Data in Transportation Decision Making!

Let's face it. Each of us is continually quizzed on the best and most groundbreaking means to meet the ever-increasing demand for transportation infrastructure and services in a continuously evolving industry paradigm. Five years ago there was very little discussion of applying such innovations as Mobility-as-a-Service or vehicle automation and connectivity. Yet these are becoming household words, and the industry is still challenged on knowing when and how to apply innovation in the transportation planning and investment landscape. Furthermore, industry advances allow for more detailed and voluminous data on how, where and when we travel, but access and use of these data is not a simple matter for agencies. Whether these questions come from the public, elected officials, a supervisor, co-worker, or even professional and personal acquaintances . . . we are often front and center for answers. As we formulate answers, we look at the data we collect, the metrics we measure, and our own processes developed for making transportation decisions. We also look to conferences like this one to help us consider the models, tools and options available to us to advance our state of practice, while seeking validation, where appropriate, for our established planning and engineering programs and pursuits.

The conference planning committee is very excited to present this program on Performance and Data in Transportation Decision Making, a program that we believe will be useful, and instructive to your time here in Atlanta and readily applicable upon returning to your home organization. The agenda includes 34 interactive conference sessions with 120 presentations addressing various decision-making topics across four technical topic areas, or "tracks": Performance and Project Selection, Multi-modal Considerations, Data Considerations, and Public Involvement and Communications. Professionals from state departments of transportation, metropolitan planning organizations, universities, National Cooperative Highway Research Program (NCHRP) panels, federal agencies, software developers, and private-sector consultants will be here as both speakers and attendees to share their insights and experiences. The program includes opportunities for after-hours informal networking to keep the conversation going. We hope you will make the most of this unique opportunity to interact with your peers and other industry representatives on the latest research and practical methods for using data and performance measures to inform decisions on transportation services and infrastructure in urban and rural areas alike.

We are pleased to announce that TRB will be developing a post-conference "E-circular" summary of the conference presentations and discussions through a generous contribution by the Federal Highway Administration. This will enable the reach of this conference to extend to a broader array of professionals and help kick start any subsequent activity on developing research problem statements or plans for implementation and adoption that might take place within the transportation industry. Look for the E-circular to be available on the TRB website in early 2020.

Finally, this conference could not take place without the generous patronage support of thirteen organizations. Look for their logos and advertisements in this program and please be certain to visit their exhibits during the conference.

Enjoy your time in Atlanta!

Bob Hazlett, Maricopa Association of Governments
Conference Planning Co-Chair

David Wasserman, North Carolina DOT
Conference Planning Co-Chair

CONFERENCE PLANNING COMMITTEE

Bob Hazlett, *Conference Co-chair*, Maricopa Association of Governments
David Wasserman, *Conference Co-chair*, North Carolina Department of Transportation
Claudia Bilotto, WSP
Jerri Bohard, Oregon Department of Transportation
J. Matthew Carpenter, Sacramento Area Council of Governments
Matthew Hardy, American Association of State Highway and Transportation Officials
Patricia Hendren, I-95 Corridor Coalition
Jordan Holt, Washington Metropolitan Area Transit Authority
Bill Keyrouze, Association of Metropolitan Planning Organizations
Deborah Miller, Kansas University Public Management Center
Harlan Miller, Federal Highway Administration
James Mitchell, Louisiana Department of Transportation and Development
Jon Schermann, Metropolitan Washington Council of Governments
Joseph Schofer, Northwestern University
Tracy Selin, Cambridge Systematics
Hannah Twaddell, ICF
Amy Van Doren, Marin Transit
Dwayne Weeks, Federal Transit Administration
Penelope Weinberger, American Association of State Highway and Transportation Officials

TRB STAFF

Jennifer L. Weeks
Tom Palmerlee
Megan Kaufmann
Mary Kissi

TRANSPORTATION RESEARCH BOARD

The **Transportation Research Board** is one of seven major programs of the National Academies of Sciences, Engineering, and Medicine. The mission of the Transportation Research Board is to increase the benefits that transportation contributes to society by providing leadership in transportation innovation and progress through research and information exchange, conducted within a setting that is objective, interdisciplinary, and multimodal. The Board's varied committees, task forces, and panels annually engage about 7,000 engineers, scientists, and other transportation researchers and practitioners from the public and private sectors and academia, all of whom contribute their expertise in the public interest. The program is supported by state transportation departments, federal agencies including the component administrations of the U.S. Department of Transportation, and other organizations and individuals interested in the development of transportation.

COMMITTEE MEETINGS

AASHTO Committees		
AASHTO Committee on Data Management and Analytics, Leadership Group	Sunday, September 15, 9am – 12pm	<i>Walnut Room</i>
AASHTO Committee on Performance Based Management	Sunday, September 15, 9am – 12pm	<i>Grand Ballroom A (M4)</i>
AASHTO Committee on Data Management and Analytics	Sunday, September 15, 1pm – 4pm	<i>Walnut Room</i>
AASHTO Organizational Management Subcommittee (joint meeting with TRB Committee on Management and Productivity – ABC20)	Tuesday, September 17, 6pm – 8pm	<i>Grand Ballroom A (M4)</i>
TRB Committees		
TRB Committee on Statewide Transportation Data Information Systems (ABJ20)	Sunday, September 15 9am – 12pm	<i>Hickory Room</i>
TRB Committee on Performance Management (ABC30)	Sunday, September 15 1pm – 4pm	<i>Grand Ballroom C (M4)</i>
TRB Committee on Statewide Multimodal Planning (ADA10)	Sunday, September 15, 1pm - 4pm	<i>Grand Ballroom A (M4)</i>
TRB Committee on Information Systems and Technology (ABJ50)	Sunday, September 15, 1pm - 4pm	<i>Hickory (M3)</i>
TRB Committee on Transit Management and Performance (AP010)	Sunday, September 15, 1pm - 4pm	<i>Grand Ballroom B (M4)</i>
TRB Section on Management and Leadership (ABC00)	Sunday, September 15, 6pm - 8pm	<i>TBD</i>
TRB Committee on Metropolitan Planning, Policy and Processes (ADA20)	Tuesday, September 17, 6 pm – 8pm	<i>Grand Ballroom C (M4)</i>
TRB Committee on Regional Transportation Systems Management (AHB10)	Tuesday, September 17, 6pm – 8pm; Wednesday, September 18, Noon – 5pm	<i>Oak (LL)</i>
TRB Committee on Management and Productivity (ABC20) (joint meeting with AASHTO Organizational Management Subcommittee)	Tuesday, September 17, 6pm – 8pm	<i>Grand Ballroom A (M4)</i>

CONFERENCE AT A GLANCE

Sunday, September 15		
Noon – 5:00 p.m.	Registration	<i>M4 Prefunction</i>
9:00 a.m. – Noon	Committee Meetings	
	TRB Committee on Statewide Transportation Data Information Systems (ABJ20)	<i>Hickory (M3)</i>
	AASHTO Committee on Leadership Group	<i>Walnut (M3)</i>
	AASHTO Committee on Performance-Based Management	<i>Grand Ballroom A (M4)</i>
1:00 p.m. – 4:00 p.m.	Committee Meetings	
	TRB Committee on Performance Management (ABC30)	<i>Grand Ballroom C (M4)</i>
	TRB Committee on Information Systems and Technology (ABJ50)	<i>Hickory (M3)</i>
	AASHTO Committee on Data Management and Analytics	<i>Walnut (M3)</i>
	TRB Committee on Statewide Multimodal Planning (ADA10)	<i>Grand Ballroom A (M4)</i>
	TRB Committee on Transit Management and Performance (AP010)	<i>Grand Ballroom B (M4)</i>
6:00 p.m. – 8:00 p.m.	TRB Section on Management and Leadership (ABC00)	<i>TBD</i>
6:00 p.m.	Social Event: Scavenger Hunt (begins at 6:15PM)	<i>Registration Area</i>
Monday, September 16		
7:30 a.m. – 5:00 p.m.	Registration	<i>M4 Prefunction</i>
7:30 a.m. – 5:30 p.m.	Exhibits	<i>M4 Prefunction</i>
8:30 a.m. – 10:30 a.m.	Opening Session: Special Session #1	<i>Grand Ballroom E (M4)</i>
10:30 a.m. – 11:00 a.m.	Break	<i>M4 Prefunction</i>
11:00 a.m. – 12:30 p.m.	Concurrent Breakout Sessions: 1A, 1B, 1C, 1D.	
	1A: State and MPO Transportation Plans – How Agencies Are Using Data to Shape Investment Decisions	<i>Grand Ballroom A (M4)</i>
	1B: Benchmarking: Collaborating to Develop Common Performance Measures	<i>Grand Ballroom B (M4)</i>
	1C: State of the Nation/Balancing Data-Driven Decision-Making with Political Reality	<i>Grand Ballroom C (M4)</i>
	1D: Engaging the Public and Local Officials in Data Driven Decision Making	<i>Dogwood (M1)</i>
12:30 a.m. – 2:00 p.m.	Lunch with Key Note Speaker	<i>Grand Ballroom E (M4)</i>

2:00 p.m. – 3:30 p.m.	Concurrent Breakout Sessions: 2A, 2B, 2C, 2D.	
	2A: Using Business Intelligence Tools to Improve Decision-Making	<i>Grand Ballroom A (M4)</i>
	2B: The Road to High-Value BI Opportunities: Bringing together the Decision Maker, Data, Analytics, and the Kitchen Sink, Part 1	<i>Grand Ballroom B (M4)</i>
	2C: Data-driven Project Selection Across the States	<i>Grand Ballroom C (M4)</i>
	2D: Fostering Local Accountability for Regional and State-wide System Performance	<i>Dogwood (M1)</i>
3:30 p.m. – 4:00 p.m.	Break	<i>M4 Prefunction</i>
4:00 p.m. – 5:30 p.m.	Concurrent Breakout Sessions: 3A, 3B, 3C, 3D.	
	3A: Aligning Goals of State DOT Plans for Implementation Success	<i>Grand Ballroom A (M4)</i>
	3B: The Road to High-Value BI Opportunities: Bringing together the Decision Maker, Data, Analytics, and the Kitchen Sink, Part 2	<i>Grand Ballroom B (M4)</i>
	3C: Mode-Neutral Project Evaluation	<i>Grand Ballroom C (M4)</i>
	3D: Fostering Employee Accountability for Agency Performance - WMATA Case Study	<i>Dogwood (M1)</i>
5:30 p.m. – 7:00 p.m.	Welcome Reception/ Poster Session/Exhibits	<i>Grand Ballroom E (M4)</i>
Tuesday, September 17		
7:30 a.m. – 5:00 p.m.	Registration	<i>M4 Prefunction</i>
7:30 a.m. – 5:30 a.m.	Exhibits	<i>M4 Prefunction</i>
8:30 a.m. – 10:30 a.m.	Plenary Session: Special Session #2:	<i>Grand Ballroom E (M4)</i>
10:30 a.m. – 11:00 a.m.	Break	<i>M4 Prefunction</i>
11:00 a.m. – 12:30 p.m.	Concurrent Breakout Sessions: 4A, 4B, 4C, 4D.	
	4A: Tools to Aid in the Monitoring of Multimodal Performance Measures	<i>Grand Ballroom A (M4)</i>
	4B: Using Data to Inform Decisions	<i>Grand Ballroom B (M4)</i>
	4C: Getting into the Details of Highway Project Evaluation	<i>Grand Ballroom C (M4)</i>
	4D: Statewide Frameworks for Collaborative Performance Management	<i>Dogwood (M1)</i>
12:30 p.m. – 2:00 p.m.	Lunch with Special Guest Speaker	<i>Grand Ballroom E (M4)</i>
2:00 p.m. – 3:30 p.m.	Concurrent Breakout Sessions: 5A, 5B, 5C, 5D.	
	5A: Guiding the Process For Evaluating Needs and Investments for DOTs and MPOs	<i>Grand Ballroom A (M4)</i>

	5B: Lessons Learned on Data Governance	<i>Grand Ballroom B (M4)</i>
	5C: Getting into the Details of Multimodal (Transit / Bike & Ped) Project Evaluation	<i>Grand Ballroom C (M4)</i>
	5D: Dashboard Demo	<i>Dogwood (M1)</i>
3:30 p.m. – 4:00 p.m.	Break	<i>M4 Prefunction</i>
4:00 p.m. – 5:30 p.m.	Concurrent Breakout Sessions: 6A, 6B, 6C, 6D.	
	6A: It Is All About Transit	<i>Grand Ballroom A (M4)</i>
	6B: Improving Data Governance to Support Decision Making	<i>Grand Ballroom B (M4)</i>
	6C: Speed Data[ing] (Data & Tools used in project evaluation that feeds the TIP/STIP)	<i>Dogwood (M1)</i>
	6D: Works In Progress: Research and Capacity-Building Initiatives to Advance Data Driven Decision Making	<i>Grand Ballroom C (M4)</i>
	Committee Meetings	
6:00 p.m. – 8:00 p.m.	TRB Committee on Regional Transportation Systems Management and Operations (AHB10)	<i>Oak (LL)</i>
	TRB Committee on Metropolitan Policy, Planning and Processes (ADA20)	<i>Grand Ballroom C (M4)</i>
	Joint Meeting - TRB Committee on Management and Productivity (ABC20) and AASHTO Organizational Management Subcommittee	<i>Grand Ballroom A (M4)</i>
Wednesday, September 18		
7:30 a.m. – 10:00 a.m.	Registration	<i>M4 Prefunction</i>
8:30 a.m. – 11:00 a.m.	Exhibits	<i>M4 Prefunction</i>
8:30 a.m. – 10:00 a.m.	Concurrent Breakout Sessions: 7A, 7B, 7C, 7D.	
	7A: How Transit Agencies are Revamping their Data Analysis to Make Collaboration with Cities and MPOs More Effective, Efficient, and Measurable	<i>Grand Ballroom A (M4)</i>
	7B: Private Data	<i>Grand Ballroom B (M4)</i>
	7C: Communicating Project Selection Results	<i>Grand Ballroom C (M4)</i>
	7D: Achieving the National Goals Supported by Federally Required Performance Measures	<i>Dogwood (M1)</i>
10:00 a.m. – 10:30 a.m.	Break	<i>M4 Prefunction</i>
10:30 a.m. – Noon	Conference Closing Session: Bring it all Together	<i>Grand Ballroom E (M4)</i>
Noon – 5:00 p.m.	FHWA Workshop	<i>Redwood (M1)</i>
	TRB Committee on Regional Transportation Systems Management and Operations (AHB10)	<i>Oak (LL)</i>

Sunday, September 15

Noon - 5:00 p.m. - **M4 Prefunction**

Registration

9:00 a.m. - Noon

Committee Meetings

- TRB Committee on Statewide Transportation Data Information Systems (ABJ20) - **Hickory (M3)**
- AASHTO Committee on Leadership Group - **Walnut (M3)**
- AASHTO Committee on Performance-Based Management - **Grand Ballroom A (M4)**

1:00 p.m. - 4:00 p.m.

Committee Meetings

- TRB Committee on Performance Management (ABC30) - **Grand Ballroom C (M4)**
- TRB Committee on Information Systems and Technology (ABJ50) - **Hickory (M3)**
- AASHTO Committee on Data Management and Analytics - **Walnut (M3)**
- TRB Committee on Statewide Multimodal Planning (ADA10) - **Grand Ballroom A (M4)**
- TRB Committee on Transit Management and Performance (AP010) - **Grand Ballroom B (M4)**

6:00 p.m.: **Registration Area**

Social Event: Scavenger Hunt (begins at 6:15PM)

Monday, September 16

7:30 a.m. - 5:00 p.m. - **M4 Prefunction**

Registration

7:30 a.m. - 8:30 a.m. - **M4 Prefunction**

Continental Breakfast

7:30 a.m. - 5:30 p.m. - **M4 Prefunction**

Exhibits

8:30 a.m. - 10:30 a.m.

Welcome and Opening Session - Grand Ballroom E (M4)

Opening Session

Bob Hazlett, *Maricopa Association of Governments*
Chair, Conference Planning Committee

Special Session #1: What Performance Based Decision-Making Looks like from State, Regional and Local Leaders

Moderator: Patricia Hendren, I-95 Corridor Coalition

- **Russell McMurry**, Commissioner, *Georgia Department of Transportation*
- **Kyle Schneweis**, Director, *Nebraska Department of Transportation*
- **Tina Quigley**, Chief Executive Officer, *Regional Transportation Commission of Southern Nevada*
- **Jacob Tzegaegbe**, Senior Transportation Policy Advisor, *City of Atlanta*
- **Yvonne Carney**, Director of Strategic Performance, *Washington Suburban Sanitary Commission*

10:30 a.m. - 11:00 a.m. - **M4 Prefunction**

Break

11:00 a.m. - 12:30 p.m.

Concurrent Breakout Sessions

Session 1A - *Grand Ballroom A (M4)*

State and MPO Transportation Plans – How Agencies Are Using Data to Shape Investment Decisions

Moderator: John Orr, Atlanta Regional Commission

Analyzing Freight Flows and Trends to Improve Freight Investments

Michael Vanderhoof, Illinois Department of Transportation

Guide towards Zero Deaths – Analyze Data and Select Strategies to Address Safety Issues

Eric Tang, Vanasse Hangen Brustlin, Inc.

Planning for an Uncertain Future

Matt Haubrich, Iowa Department of Transportation

Where Do We Go from Here? Preparing a Platform for Success

Monique de los Rios-Urban, Maricopa Association of Governments

Session 1B - *Grand Ballroom B (M4)*

Benchmarking: Collaborating to Develop Common Performance Measures

Moderator: Amy Van Doren, Marin Transit

**Outcome-Driven Performance Measure for Funding Allocation that Makes Paradigm Shift:
MTC's StreetSaver Tool**

Sui Tan, Metropolitan Transportation Commission

Comparing Apples to Apples - Interagency Scorecard Framework

Brian Brooke, Sound Transit

Session 1C - *Grand Ballroom C (M4)*

State of the Nation/Balancing Data-Driven Decision-Making with Political Reality

Moderator: David Jackson, Cambridge Systematics

State of the Nation

David Jackson, Cambridge Systematics

North Carolina's Strategic Transportation Investments Prioritization Process

David Wasserman, North Carolina Department of Transportation

Virginia's Smart Scale Project Selection Process

Chad Tucker, Virginia Office of Intermodal Planning and Investment

Arizona's P2P Process

Dan Gabiou, Arizona Department of Transportation

Session 1D - *Dogwood (M1)*

Engaging the Public and Local Officials in Data Driven Decision Making

Moderator: Claudia Billotto, WSP

Project Prioritization Made Simple

Allan Fye and Ben Owen, Northern Virginia Transportation Commission

Man Makes Rational Choices Using PBPP

Beth Alden, Hillsborough County Metropolitan Planning Organization

Connecting Northwestern Indiana's Vision for 2050 to the Transportation Improvement Program

Trey Wadsworth, Northwestern Indiana Regional Planning Commission

12:30 p.m. - 2:00 p.m. - Grand Ballroom E (M4)

Lunch with Key Note Speaker

Moderator: Patricia Hendren, I-95 Corridor Coalition

Transforming Transit: Using Community Involvement to Turn Around a Beleaguered Agency

Keith Parker, CEO, Goodwill of North Georgia, Former CEO of MARTA

Keith T. Parker is President and CEO of Goodwill of North Georgia. Prior to that, he served as the General Manager and Chief Executive Officer of the Metropolitan Atlanta Rapid Transit Authority (MARTA), the nation's 9th largest transit system that includes heavy rail, bus and paratransit services. With an annual budget of \$1 billion, MARTA provides more than 400,000 passenger boardings a day. Keith will discuss his time at MARTA where he and his team balanced the budget, improved efficiencies, increased bus and rail service, enhanced the customer experience, and restored pride among

MARTA employees and staff. MARTA is now recognized as one of the most innovative transit authorities in the nation. And, Parker was recognized by APTA and METRO Magazine for his ability to transform agency efficiencies, implement cost-effective measures, and engender a culture of innovation in diverse environments. Additionally, Keith will discuss how a continued focus on research and improving the customer experience has translated to his new role at Goodwill of North Georgia.

2:00 p.m. - 3:30 p.m.

Concurrent Breakout Sessions

Session 2A - Grand Ballroom A (M4)

Using Business Intelligence Tools to Improve Decision-Making

Moderator: Yvonne Carney, Washington Suburban Sanitary Commission

Maintaining an Analytical Framework for Database Management of Performance Data at SCDOT Chowdhury Siddiqui, South Carolina Department of Transportation

Port Authority Enables Data Driven Decision Making Using an Integrated Analytics Platform Theodore Bobowsky, Port Authority of New York and New Jersey

Developing Receptive Enterprise Management Systems in an Era of Performance-Based Management: A Case Study

Richard Boadi, Wood Environment & Infrastructure Solutions. Inc.

Session 2B - Grand Ballroom B (M4)

The Road to High-Value BI Opportunities: Bringing together the Decision Maker, Data, Analytics, and the Kitchen Sink, Part 1

Moderator: Vaishali Shah, AEM Corporation

Part 1 of 2 sessions presents the finding and framework from the NCHRP 03-128: Business Intelligence (BI) Techniques for Transportation Agency Decision Making, focusing on BI Analytics techniques, data management and decision making. Session 3B will engage participants in applying the BI framework.

Vaishali Shah and Benjamin Pecheux, AEM Corporation; Pat Noyes, Pat Noyes & Associates; and Emanuel Robinson, WESTAT

Session 2C - Grand Ballroom C (M4)

Data-driven Project Selection Across the States

Moderator: David Wasserman

Kentucky's SHIFT Program

Scott Thomson, Kentucky Transportation Cabinet

MassDOT'S Project Selection Process

Bryan Pounds, Massachusetts Department of Transportation

One Nevada Transportation Plan

Sondra Rosenberg, *Nevada Department of Transportation*

Texas DOT's Project Selection Process

Peter Smith, *Texas Department of Transportation*

Minnesota DOT'S New Project Selection Process

Philip Schaffner, *Minnesota Department of Transportation*

Session 2D - *Dogwood (M1)*

Fostering Local Accountability for Regional and Statewide System Performance

Moderator: *Michael Grant, ICF*

Performance-based maintenance at Michigan DOT

Gareth McKay, *WSP*

Development of a Performance Based Approach to Revenue Distribution in the San Francisco Bay Area: A Case Study in Stakeholder Engagement

Theresa Romell, *Metropolitan Transportation Commission*

3:30 p.m. - 4:00 p.m. - *M4 Prefunction*

Break

4:00 p.m. - 5:30 p.m.

Concurrent Breakout Sessions

Session 3A - *Grand Ballroom A (M4)*

Aligning Goals of State DOT Plans for Implementation Success

Moderator: *Jessie Jones, Arkansas Department of Transportation*

Performance Based Planning and Programming - Connecting the Dots

Larry Shifflet, *Pennsylvania Department of Transportation*

Toward a Common Vision: Aligning MnDOT's Family of Plans

Philip Schaffner, *Minnesota Department of Transportation*

How Do We Plan To Create a Statewide Performance Based Integrated Multiagency Multimodal Transportation Strategy for Washington State in Three Easy Steps

Jeremy Jewkes, *Washington State Department of Transportation*

Session 3B- *Grand Ballroom B (M4)*

The Road to High-Value BI Opportunities: Bringing together the Decision Maker, Data, Analytics, and the Kitchen Sink, Part 2

Moderator: *Vaishali Shah, AEM Corp.*

Part 2 builds on the information presented in session 2B through interactive breakout groups focused on applying the BI framework to asset, operations, and human capital management decisions based on guidance from NCHRP 03-128: Business Intelligence (BI) Techniques for Transportation Agency Decision Making.

Vaishali Shah and Benjamin Pecheux, *AEM Corporation*; Pat Noyes, *Pat Noyes & Associates*; and Emanuel Robinson, *WESTAT*

Session 3C - *Grand Ballroom C (M4)*

Mode-Neutral Project Evaluation

Moderator: *J. Matthew Carpenter, Sacramento Area Council of Governments*

Recapping the Spokane Peer Exchange

Tracy Selin, *Cambridge Systematics*

Mode-Neutral Project Prioritization, an MPO Success Story

Tracy Selin, *Cambridge Systematics*

Comparing Projects Across Modes in Virginia

Chad Tucker, *Virginia Office of Intermodal Planning and Investment*

Revamping Vermont's' Project Selection and Prioritization Processes

Chad Allen, *Vermont Agency of Transportation*

Session 3D - *Dogwood (M1)*

Fostering Employee Accountability for Agency Performance - WMATA Case Study

Moderator: *Jordan Holt, Washington Metropolitan Area Transit Authority*

I Need Track Rights! Using Data to Support and Sustain Development of Standardized Processes

Elissa McDade, *Washington Metropolitan Area Transit Authority*

Washington Metro's 3% Challenge: Mobilizing an agency-wide efficiency transformation program

Elissa McDade, *Washington Metropolitan Area Transit Authority*

WMATA's Non-Revenue Fleet Dashboard

Laura Moeini, *Washington Metropolitan Area Transit Authority*

5:30 p.m. - 7:00 p.m. - *Grand Ballroom E (M4)*

Welcome Reception/Poster Session/Exhibits

Methodology to Capture the Effects of Construction Projects on Travel Time Reliability Measures in South Carolina

Siddiqui Chowdhury, *South Carolina Department of Transportation*

Introduction to the Census Transportation Planning Products Program Data Set and its Many Applications

Penelope Weinberger, *AASHTO*

Methodology to Validate Accuracy of Automated Systems Using Cell Phones

Sylvan Hoover, *Oregon State University*

Framework for Identifying Systematic Service Deterioration from the Passengers' Perspective in Urban Rail Systems (Hong Kong) Using Excess Journey Time as a Measure of the Gap Between Service Expectations and Passenger Experience

Kenji Chigusa, *East Japan Railway Company*

Performance Measures to Evaluate the Quality of Safety Data

Nancy Lefler, *UNC Highway Safety Research Center*

Evolution of HPMS Pavement Condition Data

Amy Simpson, *Wood Environment & Infrastructure Solutions, Inc.*

Pavement Performance Measures and Condition in 2018 versus 2015

Sareh Kouchaki, *Wood Environment & Infrastructure Solutions, Inc.*

Evaluating the National Transit Asset Management Program

Mshadoni Smith, *Federal Transit Administration*

Life-Cycle Cost Assessment of Maintenance and Repair Strategies for Bridges

Dena Khatami, *Wood Environment & Infrastructure Solutions, Inc.*

What is a Swing Weight and Why Does it Matter

Bobby Cottam, *Burns & McDonnell*

The Use of Performance Measures in Transit Funding Allocation: Experiences Across States
Jerry Zhiron Zhao, *University of Minnesota*

How Roadway Speed Performance Metrics are Being Used in Project Prioritization of Safety Projects
David Ederer, *Georgia Tech*

Let the Big Picture Data Speak- Focus on the Message and Change will Come
Satvinder Sandhu, *Federal Highway Administration*

Tuesday, September, 17

7:30 a.m. - 5:00 p.m. - M4 Prefunction
Registration

7:30 a.m. - 8:30 a.m. - M4 Prefunction
Continental Breakfast

7:30 a.m. - 5:30 p.m. - M4 Prefunction
Exhibits

8:30 a.m. - 10:30 a.m.

Plenary Session: Special Session #2 - Grand Ballroom E (M4)

Special Session #2: How Data is Changing the Structure and Role of Public Agencies

Moderator: Matt Hardy, American Association of State Highway and Transportation Officials

Data Changing Agency from the Inside

Greg Slater, Maryland State Highway Administration

Structuring Your Agency to Disseminate Information to Decision Makers

Tim Henkel, Minnesota Department of Transportation

New Agency Approaches to Fulfilling Performance Analytic Needs

Ryan Huff, Nebraska Department of Transportation

How Can Agencies Better Prepare for Data Today and the Unknown of Tomorrow?

Michael Pack, University of Maryland CATT Lab

10:30 a.m. - 11:00 a.m. - M4 Prefunction
Break

11:00 a.m. - 12:30 p.m.

Concurrent Breakout Sessions

Session 4A - Grand Ballroom A (M4)

Tools to Aid in the Monitoring of Multimodal Performance Measures

Moderator: John Kaliski, Cambridge Systematic

US Department of Energy: Mobility -Energy Productivity Measure: Standard for Smart City Mobility Assessment

Stanley Young, National Renewable Energy Lab

El Paso MPO's Multimodal Web Tool

Marketa Vavrova, University of Texas El Paso; and Sonia Perez, El Paso Metropolitan Planning Organization

Evolution of the FDOT Multimodal Mobility Measures Program

Monica Zhong, Florida Department of Transportation; and Praveen Pasumarthy, Cambridge Systematics

A New Multimodal Tool to Better Understand Supply Chain Performances

Chandra Bondzie, *Federal Highway Administration*; and Patricia Hendren, *I-95 Corridor Coalition*

Session 4B - Grand Ballroom B (M4)

Using Data to Inform Decisions

Moderator: Jordan Holt, *Washington Metropolitan Area Transit Authority*

GIS Enhances Asset Management and Operations

Nate Reck, *GeoDecisions, a Division of Gannett Fleming*

Managing Data, Traffic, and Expectations: Football Gameday Operations Performance Measures

Madison Metsker-Galarza, *Texas A&M Transportation Institute*

Using Cost-Benefit Analysis

Mark Seaman, *New York City Department of Transportation*

NDOT Lessons learned from Leveraging Data Science to Support Operational Decision Making

Mark Egge, *High Street Consulting*

Session 4C - Grand Ballroom C (M4)

Getting into the Details of Highway & Freight Project Evaluation

Moderator: Joseph Schofer, *Northwestern University*

Prioritizing Project Selections for Operations

Jason Firman, *Michigan Department of Transportation*

How Travel Time Data is Used in NCTCOG's Project Selection Process

Brian Dell, *North Central Texas Council of Governments*

How ARC Evaluates Highway Projects

John Orr, *Atlanta Regional Commission*

Balancing Urban and Rural Project Scoring in a Rapidly Urbanizing State

Jason Schronce, *North Carolina Department of Transportation*

Session 4D - Dogwood (M1)

Statewide Frameworks for Collaborative Performance Management

Moderator: Peter Plumeau, *Economic Development Research Group*

Florida DOT/MPO Collaboration for Transportation Planning and Performance Management

Carl Mikyska, *Florida Metropolitan Planning Organization Advisory Council*; John Kaliski, *Cambridge Systematics*

West Virginia DOT Planning and Communicating for Performance: Aligning Data, Communication, and Management Tools to Institutionalize Performance Based Decision Making

Gehan Elsayed, *West Virginia Department of Transportation*; and David Jackson, *Cambridge Systematics*

12:30 p.m. - 2:00 p.m. - Grand Ballroom E (M4)

Lunch with Special Guest Speaker

Moderator: Patricia Hendren, *I-95 Corridor Coalition*

The Link Between Transportation Performance and Economic Vitality

Mohammed Chaara, *Director of Machine Learning and Data Sciences*

Mohammed (Mo) Chaara is Director of Machine Learning and Data Sciences at UPS. In this role, he leads the UPS Global Advanced Analytics practice and is responsible for developing, managing and governing advanced analytics projects globally. Mo will discuss how UPS collects, analyzes and uses data to run its business; how a poor performing transportation system affects UPS and UPS views on the future of goods movement. UPS is known data based insights to drive business transformation. As an analytics and strategy executive Mo will highlight how data does drive UPS decisions and how making sound investments in our transportation system supports our country's economic vitality.

2:00 p.m. - 3:30 p.m.

Concurrent Breakout Sessions

Session 5A - *Grand Ballroom A (M4)*

Guiding the Process For Evaluating Needs and Investments for DOTs and MPOs

Moderator: Paul Hershkowitz, ICF

NCHRP 19-14: Sharing intelligence About System Performance to “Right Size” Transportation Investments

Kyle Schroekenthaler, *Economic Development Research Group*

MetroPlan Orlando - Aligning Objectives and Investments Using Data and Performance-Based Processes

Alex Trauger, *MetroPlan Orlando*

When Data and Politics Collide

Chris Upchurch, *Wichita Area Metropolitan Planning Organization*

Session 5B - *Grand Ballroom B (M4)*

Lessons Learned on Data Governance

Moderator: Harlan Miller, *Federal Highway Administration*

Improving Data Assessment and Governance to Support Informed Decisions: Lessons Learned

Richard Boadi, *Wood Environment & Infrastructure Solutions*

How TxDOT Tackled Growth in Performance Measures Volume

Tarun Malhotra, *Michigan Department of Transportation*

Session 5C - *Grand Ballroom C (M4)*

Getting into the Details of Multimodal (Transit / Bike & Ped) Project Evaluation

Moderator: Jason Schronce, *North Carolina Department of Transportation*

The Atlanta-Region Transit Link Authority Project Selection Project

Lori Sand, *Atlanta-Region Transit Link Authority*

LA Metro's Project Selection Process

Mark Yamarone, *LA Metro*; and Michael Snavelly, *Cambridge Systematics*

Application of ActiveTrans Prioritization by City of Harrisonburg Virginia

Elise Barrella, *Wake Forest University*

Evaluating Accessibility as Part of Hawaii DOT's Project Selection process

Eric Sundquist, *State Smart Transportation Initiative*

Integrating Equity and Resilience Into the Metropolitan Transportation Commission Project Evaluation Process

Dave Vautin, *Metropolitan Transportation Commission*

Session 5D - *Dogwood (M1)*

Dashboard Demo

Moderator: Penelope Weinberger, *American Association of State Highway and Transportation Officials*

VDOT's New Dashboard

Jay Styles, *Virginia Department of Transportation*

The Non-Revenue Fleet Dashboard

Laura Moeini, *Washington Metropolitan Area Transit Authority*

ARC DASHes Through the Data

Shichen Fan and Kyung-Hwa Kim, *Atlanta Regional Commission*

ARC Activity-Based Model Visualization Platform (ABMVIZ)

Abigail Marinelli, Guy Rousseau, and Kyeil Kim, *Atlanta Regional Commission*

MDOT Performance Dashboard

Deanna Belden, *Minnesota Department of Transportation*

Flash Report - Using Data for Informed Decision Making Every Day Hyeun

Tortora, *Chicago Transit Authority*

3:30 p.m. - 4:00 p.m. M4 Prefunction Break

4:00 p.m. - 5:30 p.m.

Concurrent Breakout Sessions

Session 6A - Grand Ballroom A (M4)

It Is All About Transit

Moderator: *Kenneth Cervenka, Federal Transit Administration*

Performance Management: From Program Initiation to Planning and Operations for Maryland Transit Administration

David Miller, *Foursquare ITP*

Evaluating Alternative Mobility Performance Measures for the Traveler's Experience

Alice Grossman, *Eno Center for Transportation*

Using Bus-Stop Level Data to Measure the Ridership Elasticity to Frequency in Four Cities

Simon Berrebi, *Georgia Institute of Technology*

Session 6B - Grand Ballroom B (M4)

Improving Data Governance to Support Decision Making

Moderator: *Anita Vandervalk, Iteris, Inc*

Data Governance to Support Performance Management and Decision Making within State DOT's

- [Cassie Jordan](#), *Texas Department of Transportation*
- [Chad Baker](#), *California Department of Transportation*
- [Leni Oman](#), *Washington State Department of Transportation*
- [Tarun Malhotra](#), *Michigan Department of Transportation*
- [Barb Cohn](#), *Colorado Department of Transportation*

Session 6C - Dogwood (M1)

Speed Data[ing] (Data & Tools used in project evaluation that feeds the TIP/STIP)

Moderator: *Penelope Weinberger, American Association of State Highway and Transportation Officials*

Kentucky's SHIFT Tool

Mark Egge, *High Street Consulting*

North Carolina DOT's "SPOT Online"

Jason Schronce, *North Carolina Department of Transportation*

New York City Strategic Plan Scoring System

Chris Hamby, *New York City Department of Transportation*

Georgia's Mark1 and Numetric Platform

Sam Harris, *Georgia Department of Transportation*

Performance-based Prioritization of NCDOT Statewide Signal System Retiming Program

Thomas Chase, *Institute for Transportation Research and Education*

Texas Corridor Prioritization Tool

Peter Smith, *Texas Department of Transportation*

Session 6D - *Grand Ballroom C (M4)*

Works In Progress: Research and Capacity-Building Initiatives to Advance Data-Driven Decision Making

Moderator: Bob Hazlett, *Maricopa Association of Governments*

Federal Highway Administration Transportation Program Management Implementation Survey of Departments of Transportation and Metropolitan Planning Organizations

Michael Nesbitt, *Federal Highway Administration*

FTA Research and Capacity Building Initiatives

David Schneider, *Federal Transit Administration Office of Research and Innovation*

Transportation Research Board Cooperative Research Programs Research Initiatives

- Michael Grant, *ICF*
- Ann Hartell, *Transportation Research Board*
- Hannah Twaddell, *ICF*

AASHTO Communities of Practice and Related Initiatives

Matt Hardy, *American Association of State Highway and Transportation Officials*

AMPO Technical Working Groups and Related Initiatives

Bill Keyrouze, *Association of Metropolitan Planning Organizations*

Committee Meetings

6:00 p.m. - 8:00 p.m.

- TRB Committee on Regional Transportation Systems Management and Operations (AHB10) - ***Oak (LL)***
- TRB Committee on Metropolitan Policy, Planning and Processes (ADA20) - ***Grand Ballroom C (M4)***
- Joint Meeting - TRB Committee on Management and Productivity (ABC20) and AASHTO Organizational Management Subcommittee - ***Grand Ballroom A (M4)***

Wednesday, September, 18

**7:30 a.m. - 10:00 a.m. - M4 Prefunction
Registration**

**7:30 a.m. - 8:30 a.m. - M4 Prefunction
Continental Breakfast**

**7:30 a.m. - Noon - M4 Prefunction
Exhibits**

**8:30 a.m. - 10:00 a.m.
Concurrent Breakout Sessions**

Session 7A - Grand Ballroom A (M4)

How Transit Agencies are Revamping their Data Analysis to Make Collaboration with Cities and MPOs More Effective, Efficient, and Measurable

Moderator: Madeline Zhu, Swiftly

Transit Signal Priority: How to Help Keep Transit Travel Times Predicable on the City's Most Congested Streets

Krae Stieffenhofer, Kimley-Horn

Better Data, Better Arguments, and Better Decisions

Adam Burger and Tamiko Percell, Santa Clara Valley Transportation Authority

Session 7B - Grand Ballroom B (M4)

Private Data

Moderator: Mara Campbell, Jacobs

Opportunities and Challenges of Using Private Sector Data

Xu Zhang, Kentucky Transportation Center

Capabilities, Benefits and Limitations of Using Cellular Network Data for Transportation Planning and Management

Bob Pauley, Cellint

Big Data - Processing, Licensing, and Use

Jason Lemp and Nick Caccamo, Cambridge Systematics

Estimation of Mobility Performance of Freeways Based on Time Exposed Time to Collision Using Trajectory Data in a Connected Environment

Leila Azizi, Florida International University

Data and Technology Trends - How Do They Impact Decision Making Processes?

Anita Vandervalk, Iteris, Inc.

Session 7C - Grand Ballroom C (M4)

Communicating Project Selection Results

Moderator: Hannah Twaddell, ICF

Panel Discussion

- *David Wasserman, North Carolina Department of Transportation*
- *Chad Tucker, Virginia Office of Intermodal Planning and Investment*
- *Dan Gabiou, Arizona Department of Transportation*

Session 7D - Dogwood (M1)

Achieving the National Goals Supported by Federally Required Performance Measures

Moderator: Harlan Miller, Federal Highway Administration

Briefing on national state of the practice followed by interactive discussion with panel and participants.

Overview of Transportation Performance Management and Performance Based Planning

Harlan Miller, FHWA Office of Planning, Michael Nesbitt, FHWA Office of Transportation Performance Management; and Ken Cervenka, FTA Office of Planning

FHWA TPM Implementation Survey of DOTs and MPOs

Michael Nesbitt, Federal Highway Administration

10:00 a.m. - 10:30 a.m. - M4 Prefunction

Break

10:30 a.m. - Noon

Conference Closing Session: Bring it all Together - Grand Ballroom E (M4)

Moderator: Bob Hazlett, Maricopa Association of Governments

Panel Discussion

- John Kaliski, *Cambridge Systematics*
- Jordan Holt, *Washington Metropolitan Area Transit Authority*
- David Wasserman, *North Carolina Department of Transportation*
- Hannah Twaddell, *ICF*

Noon - 5:00 p.m.

FHWA Workshop - Redwood (M1)

- Tool for Investment Decision Making - limited to 35 participants
- TRB Committee on Information Systems and Technology (ABJ50)

Noon - 5:00 p.m.

- TRB Committee on Regional Transportation Systems Management and Operations (AHB10) - **Oak (LL)**

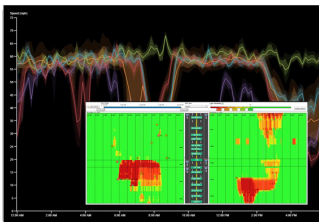

Technology at work for you

The **Center for Advanced Transportation Technology Laboratory** is a not-for-profit, interdisciplinary group of 100+ professional engineers, software developers, and researchers.

We develop and maintain the world's leading (and largest) transportation data analytics platform – supplying actionable intelligence to thousands of users in 35+ states.

Our tools are fast, reliable, open, accurate, cost-effective, and easy to use—providing results that are clear, concise and easy to understand by anyone.

info@ritis.org | www.ritis.org

The Regional Integrated Transportation Information System

- Real-time, multi-agency situational awareness
- Collaborative decision making
- Interactive visualizations for TSMO applications
- Safety and congestion performance measures and AARs

The Work Zone Performance Monitoring Application

- Conduct work zone audits
- Evaluate lane closure permits
- Automated email and txt alerts on safety and congestion issue
- Complies with the Final Rule on Work Zone Safety & Mobility

Probe Data Analytics Suite (includes NPMRDS Analytics)

- System performance measures with 3rd party speed data
- Interactive and visual bottleneck ranking, problem identification, project development, before & after studies, system performance, funding justification, after action reviews, and more
- Compute, visualize, & download MAP-21 PM3 metrics for target-setting, strategy evaluation & reporting

Trajectory/O-D Analytics

- Analyze people and freight movement data
- Dynamic and filterable O-D matrix analysis / roadway segment route analysis
- Validates Travel Demand Models, supplements major corridor planning studies, determine benefits (or consequences) of major improvement projects

Arterial Signal System Performance Measures

- Developed in conjunction with Purdue University
- Rank and compare the change in performance of corridors between two time periods
- Provides before-and-after comparison for corridor performance improvement projects & providing detailed analysis of both congestion and reliability

DECISION LENS IS THE LEADER IN PERFORMANCE-BASED STRATEGIC PLANNING SOFTWARE

By creating flexible and dynamic decision support models, Decision Lens is empowering organizations to understand the impact of their investment choices and guide their outcomes.

decisionlens.com

OPTIMIZE YOUR DECISION-MAKING WITH DATA

Cambridge Systematics combines cutting-edge data and analytics with our extensive experience to implement:

- **CREATIVE** performance-based planning solutions.
- **INNOVATIVE** approaches to asset management and project prioritization.
- **SOUGHT-AFTER** long-range transportation planning processes.

THE RESULT: We help you make more strategic and better informed investment decisions.

What if?

What if we showed you how we're solving the world's greatest transportation challenges by transforming intangible ideas into intelligent solutions for a more connected, sustainable world?

We think differently about the future. We start with "what if" to discover bold innovations that reduce risk and improve performance, while leveraging technology advances in AI and Big Data for enhanced transportation decision making.

JACOBS[®]

TRUE INSIGHT HAS NO LIMITS.

Your analytics platform
shouldn't either.

With the SAS® Platform, you can unify all analytics assets for governance and stability. Scale analytics to any size data problem. Generate insights in any computing environment. And push the edge of innovation with in-stream processing, machine learning and the Internet of Things. Countless organizations use analytics to change the world. Now, you can too.

Experian enables organizations to unlock the power of data. We focus on the quality of our clients' information, so they can explore the meaningful ways they can use it. Whether optimizing data for better customer experiences or preparing data for improved business intelligence, we empower our clients to manage their data with confidence. We have the data, expertise, and proven technology to help our customers quickly turn information into insight. We're investing in new, innovative solutions to power opportunities for our people, clients, and communities. To learn more, visit www.edq.com

SAVE THE DATE

SAVE THE DATE: NATIONAL CONFERENCE ON TRANSPORTATION ASSET MANAGEMENT
JULY 11-14, 2020
BOSTON, MA

VISIT OUR WEBSITE: <https://trb.secure-platform.com/a/page/2020AssetManagement>

The 13th National Conference on Transportation Asset Management (TAM) provides an opportunity for all practitioners involved in their agency's asset management initiative to build core competencies and generate new ideas.

- Looking for both practical and innovative presentations.
- Selected abstracts will be featured in either poster or technical podium sessions.
- Presenters will be required to register and attend the conference to be included in the final program.

Presentation tracks and crosscutting issues:

- ◆ Track 1: Implementation
- ◆ Track 2: Data Governance/Tools
- ◆ Track 3: Managing Risk
- ◆ Track 4: Partners and Peers
- ◆ Track 5: Sustaining Asset Management in your Organization
- ◆ Crosscutting Issue 1: Transit
- ◆ Crosscutting Issue 2: Resilience
