

# **Census Data for Transportation Planning: Preparing for the Future**

***May 11-13, 2005, The Beckman Center, Irvine, California***

TRB is organizing a conference to bring together professionals who work with census data for transportation planning. The overall objectives of the conference are to:

- Assess the uses of the 2000 census data
- Review the current plans for the American Community Survey (ACS) and assess its usefulness for the transportation programs.
- Review the transportation ACS-related research.
- Review and assess future transportation data needs and recommend improvements of census methodology and products.
- Recommend agency actions to improve transportation use of current census products.

## ***Committee***

### **Chair**

- Kenneth J. Leonard, Wisconsin Department of Transportation

### **Committee Members**
