

**Ppr #****Paper Title**

- 0582 Analysis of Traffic Sign Asset Management Scenarios
- 0759 Respecting, Enabling and Involving All Personnel in a Sustainable Continuity of Operations Plan
- 1559 A Composite Nearest Neighbor Nonparametric Regression to Improve Traffic Prediction
- 1563 Gender and the Automobile ; an analysis of non-work service trips
- 1629 Wide-Area, Four-Dimensional, Real-Time Interactive Transportation System Visualization
- 1919 Quantum-Frequency Algorithm for Automated Identification of Traffic Patterns
- 2030 Investigating the Transferability of National Household Travel Survey Data
- 2057 Visualizing and Analyzing Activities in an Integrated Space-Time Environment: Temporal GIS Design and Implementation
- 2172 Development of a Regional Routing Model for Strategic Waterway Analysis
- 2923 Use of Iterative Proportional Fitting Algorithm for Combining Traffic Count Data with Missing Dimensions
- 3104 A Decision Support System for Predicting Traffic Diversion Impacts across Transportation Networks using Support Vector Regression
- 1925 Can Travel Time Information Really Influence Network Flow? Implications of the Minority Game
