Sponsored by TRB's Marine Group and selected Freight Systems Group committees, TRB's 34th Annual Ports, Waterways, Freight, and International Trade Conference will focus on identifying and discussing critical issues in freight and marine transportation, developing research problem statements for consideration by the TRB National Cooperative Freight Research Program and inclusion in the TRB Research Needs database, and developing calls for papers and presentations for TRB's 2010 Annual Meeting.

In addition to plenary sessions and midyear committee meetings, the program will include exhibits and a poster session, waterside and land-side tours of the Ports of Los Angeles and Long Beach, and an optional evening lecture event at the Aquarium of the Pacific in Long Beach.
