

Greetings from Caleeforneeya (as Arnold would say),

I'm looking forward to our first Research and Education Section Meeting. We have an important meeting agenda that can facilitate our future committee and professional effectiveness. I hope to see you there.

I'm also sending you additional information for you and your family should you wish to take advantage of the significant tourist opportunities. I was raised in this area (Laguna Beach) and can recommend a variety of fun, interesting and educational activities. Please see the website below and click on the regions I've listed. Irvine (Beckman Center at the University of California, Irvine) and Newport Beach (Hotel) are in southern Orange County and are adjacent to the cities listed. I recommend you check the city convention and visitor bureaus. Los Angeles and San Diego are to the north and south, respectively, and have many attractions.
