

DOES THE BUILT ENVIRONMENT INFLUENCE PHYSICAL ACTIVITY?  
EXAMINING THE EVIDENCE

**BACKGROUND PAPERS**

**Patterns and Trends in Physical Activity, Occupation,  
Transportation, Land Use, and Sedentary Behaviors**

Ross C. Brownson and Tegan K. Boehmer, *Saint Louis University School of Public Health*

**Critical Assessment of the Literature on the Relationships  
Among Transportation, Land Use, and Physical Activity**

Susan Handy, *University of California, Davis*

**The Built Environment and Physical Activity: Empirical Methods and Data Resources**

Marlon G. Boarnet, *University of California, Irvine*

**Consumer Preferences and Social Marketing Approaches to  
Physical Activity Behavior and Transportation and Land Use Choices**

Susan D. Kirby, *Kirby Marketing Solutions*, and Marla Hollander, *San Diego State University*

**Transportation, Land Use, and Physical Activity: Safety and Security Considerations**

Anastasia Loukaitou-Sideris, *Department of Urban Planning,  
University of California, Los Angeles*

**Institutional and Regulatory Factors Related to  
Nonmotorized Travel and Walkable Communities**

Michael D. Meyer and Eric Dumbaugh, *Georgia Institute of Technology*

**Promoting Interdisciplinary Curricula and Training in  
Transportation, Land Use, Physical Activity, and Health**

Elliott D. Sclar, Mary E. Northridge, and Emily M. Karpel, *Columbia University*
