# Statewide Transportation Planning

Conference on Statewide Transportation Planning  
July 24–29, 1999  
Girdwood, Alaska

## **Conference Planning Committee**

Neil J. Pedersen, Maryland State Highway Administration, Chair

David Clawson  
Stephen C. Lockwood  
Michael D. Meyer

Susan P. Mortel  
George E. Schoener  
Dee Spann

Mary Lynn Tischer  
Paul L. Verchinski

## **TRB Committee on Statewide Multimodal Transportation Planning (A1D01)**

Neil J. Pedersen, Maryland State Highway Administration, Chair  
Susan P. Mortel, Michigan Department of Transportation, Vice Chair

Thomas B. Brigham  
Janet L. D'Ignazio  
Mark L. Ford  
John W. Fuller  
Randall K. Halvorson  
Jill L. Hochman  
Charles E. Howard, Jr.

Dane Ismart  
Gloria J. Jeff  
Marsha Kaiser  
Kenneth J. Leonard  
Ysela Llort  
Stephen C. Lockwood  
Wende A. O'Neill  
Gordon A. Shunk

Sandra Straehl  
William G. Stringfellow  
Martha J. Tate-Glass  
Mary Lynn Tischer  
Paul L. Verchinski  
Norine M. Walker  
Joanne Walsh

James A. Scott, Transportation Research Board Staff

**Transportation Research Board  
National Research Council  
2101 Constitution Avenue, NW  
Washington, DC 20418**

---

The **Transportation Research Board** is a unit of the National Research Council, a private, nonprofit institution that is the principal operating agency of the National Academy of Sciences and the National Academy of Engineering. Under a congressional charter granted to the National Academy of Sciences, the National Research Council provides scientific and technical advice to the government, the public, and the scientific and engineering communities.

The **Transportation Research Board** is distributing this Circular to make the information contained herein available for use by individual practitioners in state and local transportation agencies, researchers in academic institutions, and other members of the transportation research community. The information in this Circular was taken directly from the submissions of the authors. This document is not a report of the National Research Council or of the National Academy of Sciences.

## Contents

<b>CHAPTER 1 .....</b>	<b>1-1</b>
<b>Introduction and Executive Summary</b>	
Conference Format	
Report Format	
Executive Summary—Henry Peyrebrune	
 <b>CHAPTER 2 .....</b>	 <b>2-1</b>
<b>Opening Session</b>	
Thomas Brigham	
Sheldon Edner	
Henry Peyrebrune	
 <b>CHAPTER 3 .....</b>	 <b>3-1</b>
<b>Challenge for Statewide Transportation Planning for the 21st Century</b>	
Neil Pedersen	
Gloria Jeff	
Clyde J. Hart	
Chief Executive Officer Roundtable	
Summary of Discussion	
 <b>CHAPTER 4 .....</b>	 <b>4-1</b>
<b>Land-Use and Environmental Considerations</b>	
Edward Beimborn	
Ysela Llor	
Charles Howard	
Janet Myers	
Summary of Discussion	
Summary of Workshops—Mark Ford	
 <b>CHAPTER 5 .....</b>	 <b>5-1</b>
<b>Performance-Based Planning, Asset Management, and Management Systems</b>	
Randy Halvorson	
Tarek Hatata	
Mary Lynn Tischer	
Peter Kolakowski	
Summary of Discussion	
Summary of Workshops—Sandy Straehl	

**CHAPTER 6 .....6-1**

**Statewide Goods Movement and Intermodal Planning Issues**

John Fuller  
John Vickerman  
James Covil  
Dee Spann  
Marsha Kaiser  
Summary of Discussion  
Summary of Workshops—Ken Leonard

**CHAPTER 7 .....7-1**

**Current Trends in Transportation Planning**

Susan Mortel  
Stephen Lockwood  
Lori Kennedy  
Gordon Shunk  
Summary of Discussion  
Summary of Workshops  
    William Stringfellow  
    Dane Ismart  
    Norine Walker  
    Wende O'Neill

**CHAPTER 8 .....8-1**

**Changing Statewide Transportation Planning Process**

David Rose  
John Horsley

# THE NATIONAL ACADEMIES

*Advisers to the Nation on Science, Engineering, and Medicine*

National Academy of Sciences  
National Academy of Engineering  
Institute of Medicine  
National Research Council

The **Transportation Research Board** is a unit of the National Research Council, which serves the National Academy of Sciences and the National Academy of Engineering. The Board's mission is to promote innovation and progress in transportation by stimulating and conducting research, facilitating the dissemination of information, and encouraging the implementation of research results. The Board's varied activities annually engage more than 4,000 engineers, scientists, and other transportation researchers and practitioners from the public and private sectors and academia, all of whom contribute their expertise in the public interest. The program is supported by state transportation departments, federal agencies including the component administrations of the U.S. Department of Transportation, and other organizations and individuals interested in the development of transportation.

The National Academy of Sciences is a private, nonprofit, self-perpetuating society of distinguished scholars engaged in scientific and engineering research, dedicated to the furtherance of science and technology and to their use for the general welfare. Upon the authority of the charter granted to it by the Congress in 1863, the Academy has a mandate that requires it to advise the federal government on scientific and technical matters. Dr. Bruce M. Alberts is president of the National Academy of Sciences.

The National Academy of Engineering was established in 1964, under the charter of the National Academy of Sciences, as a parallel organization of outstanding engineers. It is autonomous in its administration and in the selection of its members, sharing with the National Academy of Sciences the responsibility for advising the federal government. The National Academy of Engineering also sponsors engineering programs aimed at meeting national needs, encourages education and research, and recognizes the superior achievements of engineers. Dr. William A. Wulf is president of the National Academy of Engineering.

The Institute of Medicine was established in 1970 by the National Academy of Sciences to secure the services of eminent members of appropriate professions in the examination of policy matters pertaining to the health of the public. The Institute acts under the responsibility given to the National Academy of Sciences by its congressional charter to be an adviser to the federal government and, upon its own initiative, to identify issues of medical care, research, and education. Dr. Kenneth I. Shine is president of the Institute of Medicine.

The National Research Council was organized by the National Academy of Sciences in 1916 to associate the broad community of science and technology with the Academy's purpose of furthering knowledge and advising the federal government. Functioning in accordance with general policies determined by the Academy, the Council has become the principal operating agency of both the National Academy of Sciences and the National Academy of Engineering in providing services to the government, the public, and the scientific and engineering communities. The Council is administered jointly by both the Academies and the Institute of Medicine. Dr. Bruce M. Alberts and Dr. William A. Wulf are chairman and vice chairman, respectively, of the National Research Council.
