TRB is sponsoring the Using Census Data for Transportation Applications Conference in the fall of 2011 in Irvine, California. The workshop will

- Disseminate the results of current research,
- Share practitioner experiences using census and other data sources,
- Discuss strategies for improving data use for current and emerging data needs for transportation applications, and
- Identify approaches to sustain productive use of census data.

The conference will convene policy makers, census data users, and researchers, as well as consultants supporting the transportation community.
Conference Planning Committee

Jonette Kreideweis, Minnesota Department of Transportation, Chair
