

New Approaches to Putting Your Data to Work

Advances in data analytics

Advances in data visualization

New tools and partnerships

Traditional software and data-handling techniques are insufficient

Behind-the-door discussion

What staffing levels are needed?

What analytics would be useful?

How the Session works

Setting the Stage (20 minutes)

Putting these New Approaches in Perspective

Catherine Lawson, University at Albany

Panelists (6-7 minutes each)

Michael Fontaine, Virginia Transportation Research Council

Mark Hallenbeck, University of Washington

William Morgan, Illinois Department of Transportation

Open Discussion (Remaining Time)

Hugh Awl

Moderating

Ed Christopher, Transportation
Planning Consultant

Recording

Penelope Weinberger, American
Association of State Highway
and Transportation Officials

New Approaches to Putting Your Data to Work

Behind-the-door discussion

How to forge new partnerships?

What type of agreements need to be in place?

What staffing levels are needed?

What is the cost?

How do we begin?

What analytics would be useful?
