

National Cooperative Highway Research Program

RESEARCH RESULTS DIGEST

September 2003—Number 280

NCHRP Manager: Crawford F. Jencks
cjencks@nas.edu

Continuing Project to Synthesize Information on Highway Problems

A staff digest of the progress and status of NCHRP Project 20-5, "Synthesis of Information Related to Highway Problems," for which the Transportation Research Board is the agency conducting the research. Individual studies for the project are managed by Jon Williams, Manager, Synthesis Studies, and Donna L. Vlasak, Senior Program Officer, serving under the Studies and Information Services Division of the Board, Stephen R. Godwin, Director.

INTRODUCTION

Highway administrators, engineers, and researchers face problems for which information already exists, either in documented form or as undocumented experience and practice. This information may be fragmented, scattered, and unevaluated. As a consequence, full knowledge of what has been learned about a problem may not be brought to bear on its solution. Costly research findings may go unused, valuable experience may be overlooked, and due consideration may not be given to recommended practices for solving or alleviating the problem.

There is information on nearly every subject of concern to highway administrators and engineers. Much of it derives from research or from the work of practitioners faced with problems in their day-to-day work. To provide a systematic means for assembling and evaluating such useful information and making it available to the entire highway community, the American Association of State Highway and Transportation Officials—through the mechanism of the National Cooperative Highway Research Program—authorized the Transportation Research Board to undertake a continuing study. This study, NCHRP Project 20-5, "Synthesis of Information Related to Highway Problems," searches out and synthesizes useful knowledge from all available sources and prepares concise, documented reports on specific topics. Reports from this endeavor constitute an NCHRP report series, *Synthesis of Highway Practice*.

Suggestions for synthesis topics may be sent to the NCHRP Manager at any time by contacting the Cooperative Research Programs Staff, Transportation Research Board, 500 Fifth Street, NW, Washington D.C. 20001. You can also submit your recommendation at: <http://www4.trb.org/trb/synthesis.nsf> "SUGGEST an NCHRP or TCRP Synthesis Topic." Topics suggested must be accompanied by a brief (one or two paragraphs) scope statement including a discussion of the problem. A title (preferably 10 words or less) and the name and affiliation of the submitter are also necessary. Identification of information sources would also be appreciated too. Suggestions for updates of published syntheses are also welcome. A committee meets once each year, usually in the late spring, to make the final selections. To be considered at the next annual meeting, all submissions should be received by **January 31**. If a topic is not selected, the problem statement must be resubmitted the following year to be reconsidered.

Interested in writing a synthesis? For details, see the Synthesis homepage (address above) under "New Topics."

THE SYNTHESIS PROJECT

This synthesis series reports on current knowledge and practice, in a compact format, without the detailed directions usually found in handbooks or design manuals. Each report in the series provides a compendium of the best knowledge available on those measures found to be most successful in resolving specific problems.

To develop these syntheses in a comprehensive manner and to ensure inclusion of significant knowledge, the Transportation Research Board analyzes available information assembled from numerous sources, including state departments of transportation. A panel of experts in the subject area is established to guide the researchers in organizing and evaluating the data collected on each topic and to review the synthesis report.

For each topic the project objectives are (1) to locate and assemble documented information; (2) to learn what practice has been used for solving or alleviating the problems; (3) to identify all ongoing research; (4) to learn what problems remain largely unsolved; (5) to organize, evaluate, and document the useful information that is acquired; and (6) to disseminate the synthesis information to all who might benefit from it.

Each synthesis is an immediately useful document that records practices that were acceptable within the limitations of the knowledge available at the time of its preparation. New knowledge can be expected to be added to that which is now at hand and eventually the synthesis may need to be updated or redone. The readers and users of the syntheses are in the best position to know when this has occurred. Whenever you believe that a synthesis should be updated, it would be appreciated if you would contact TRB and propose a synthesis update by contacting the NCHRP Manager, Transportation Research Board, 500 Fifth Street, NW, Washington D.C. 20001.

Studies in Progress and Planned for 2003

Work is currently under way on the topics listed in Table 1. Topics selected for the current program are listed in Table 2. Questions on these topics should be addressed to the project study managers, Jon Williams by e-mail at jwilliams@nas.edu, or by phone at 202-334-3245 or Donna L. Vlasak, by e-mail at dvlasak@nas.edu, or by phone at 202-334-2974.

Selection of Topics

NCHRP Project Committee SP20-5 meets each year to select topics for study using funds from the upcoming fiscal year. The membership of this com-

mittee is given in Table 3. Current funding allows for initiation of about 12 syntheses per year. These, plus some alternate topics, are selected by the committee at its annual project meeting.

The following factors are considered in the selection process for synthesis topics:

- The topic should address a problem that is widespread enough to generate broad interest in the synthesis.
- The topic should be timely and critical with respect to safety, economic, or social impact.
- The topic is appropriate if current practice is non-uniform or inconsistent from agency to agency, or if the validity of some practices appears to be questionable.
- The quality and quantity of useful available information should indicate a need to organize and compress that which has already been learned and written on the topic.
- The topic should not be one where ongoing research or other activities in progress might be expected to render the synthesis obsolete shortly after completion.

Each year many more topics are suggested for the committee's consideration than can be programmed for study in Project 20-5. Nevertheless, the continued success of this project depends on a constant supply of worthy synthesis topics. The interest of those who have recommended topics is sincerely appreciated, and they are urged to continue. Candidate topics are suggested by members of the committee and by a variety of other sources, including state department of transportation personnel; FHWA, AASHTO, and TRB committees; and other practitioners and researchers.

Available Publications

The Syntheses of Highway Practice that have been completed under this project are listed in Table 4. Four Research Results Digests on topics studied under the project are also listed. In addition, two unpublished reports are available. The unpublished reports are for information only, as they have not undergone the full review process of a published study. Copies of these Syntheses, Digests, and unpublished reports can be obtained from the publications office, Transportation Research Board, 500 Fifth Street, NW, Washington D.C. 20001; by calling (202) 334-3213; and through the Internet at <http://nationalacademies.org/trb/bookstore>. All reports from No. 295 on (and some selected others) are available as online publications (<http://www4.trb.org/trb/onlinepubs.nsf> "Cooperative Research Programs").

Index of Topic Subjects

Table 5 is an index to published syntheses, unpublished studies, and digests and topics under study, as well as those expected to be started through 2003.

Conduct of the Studies

Following the project committee's selection of topics, studies are initiated in the order of priority assigned by the committee. A panel consisting of practitioners and researchers is formed for each topic. At its first meeting, this topic panel thoroughly discusses the topic, refines the scope, suggests sources of information, and identifies and discusses potential topic consultants.

Following this meeting, a consultant is hired to gather information on the topic, synthesize it, and draft a report. Typically, the agreement covers a period of 12–15 months. Information gathering and preparation of the first draft of the synthesis report takes about 8 months. This draft is reviewed by the topic panel with the consultant, often at the second panel meeting. A revised draft is then prepared by the consultant. Subsequent drafts and meetings are scheduled, if needed, although this rarely occurs.

After the staff is substantially satisfied with the report, a final draft is sent to the members of NCHRP Project Committee SP20-5 for their approval. At the same time, members of the topic panel have their last chance to review the report, which is subsequently published as an NCHRP Synthesis of Highway Practice.

Table 1
TOPICS BEING STUDIED

No.	Title	No.	Title
32-06	Public Benefits of Highway System Maintenance and Operations	34-04	Automated Pavement Distress Collection Techniques
32-08	Cost-Effective Structures for Off-System Bridges	34-05	Effective Construction Management of Disadvantaged Business Enterprise Issues
33-03	State Product Evaluation Programs	34-06	Convertible Roadways and Lanes
33-04	Integrated Roadside Vegetation Management	34-07	Agreements Between State and Local Agencies to Manage Arterial Corridors to Preserve Mobility and Safety
33-09	Statewide Highway Letting Program Management	34-08	Use of Ultra-Thin Whitetopping
33-10	Steel Bridge Erection Practices	34-09	Concrete Bridge Deck Performance
33-11	Including Tourism and Recreation Travel in Metropolitan and Statewide Transportation Planning and Decision Making	34-10	Winter Highway Operations
34-01	Centerline Rumble Strips on Rural Roads	34-11	Geographic Information System Applications in Pavement Management
34-02	Road Safety Audits	34-12	Access Location and Design on Crossroads in the Vicinity of Freeway Interchanges
34-03	Linking Strategic Planning to Resource and Implementation Issues		

Table 2
SYNTHESIS TOPICS SELECTED FOR THE FY 2003 PROGRAM

No.	Title	No.	Title
35-01	State Quality Assurance Programs	35-10	Interventions and Decisions for Crash Risk Reduction with Aging Populations
35-02	Chip Seal Best Practices	35-11	Causal Links Between Transportation and Economic Development
35-03	Crash Reporting and Processing	35-12	Analysis of State DOTs and Other Research Organization's Technology Transfer Successes, Challenges, and Needs
35-04	Value Engineering in Transportation		
35-05	Programs, Practices, and Strategies for Developing Transportation Agency Leaders		
35-06	Acquisition of Access Rights; Impacts		
35-07	Inspection and Maintenance of Cable-Stayed Bridges		
35-08	Comprehensive Investigation of Bridges with Fracture Critical Details		
35-09	Archaeological Investigations		
			<i>Alternate Topics</i>
		35-13	Use of Geophysics on Transportation Projects
		35-14	Micro-Resurfacing
		35-15	Developing Statewide Travel Forecasting Models

 - lane occupancy 293
 Incident clearance 318
 Incident management 156, 270, 318
 Information for motorists 7, 71, 162, 237, 309
 Information systems 133, 296
 Innovation by private industry 149, 265
 Inspection by consultants 146, 263
 Inspection of bridges 88
 Instrumentation 36, 235
 Instrumentation, geotechnical 89, 253

Table 5 (continued)

Insurance 308	- maintenance, equipment 283	- joints 19, 56, 98, 134, 211	Quality assurance 38, 65, 148, 212, 232, 263, RRD 274
Interchanges 299	- major events 309	- life-cycle costs 122, 269	Quality control RRD 274
Intermodal Facilities w/ Freight 320	- personnel 11, 120	- light duty 260	
Intersections 299, 310	- project, systems 282	- low-volume 27, 260	
ISTEA	- research 113, 231	- maintenance 9, 19, 25, 30, 45, 56, 60, 64, 98, 134, 211, 223	Radio communications 12, 13, 165
- 15 factors 217	- risk, R-O-W 292	- maintenance costs 77, 98, 223	Radio frequency management 13
- small MPOs 252	- roadway information 133	- management 135, 222	Railroad grade crossings 252, 271
Joints, bridge deck 141, 319	- safety systems 322	- markings 17, 138, UR24-07, 306	Rapid test methods 187
Joints, concrete pavement 19, 56, 98, 134, 211	- snow and ice control operations 207	- moisture damage 175	Reconstruction 247, 273
Joints and cracks, sealing 98	- S.E.E. assessments 40	- noise characteristics 268	Recycling highway materials 54, 154, 160, 193, 198, 199
Laboratory testing equipment 36	- training 11, 188	- overlays 9, 92, 99, 116, 144, 204	Reduced visibility 228
Land development 233	Materials	- patching 9, 45, 64	Reference methods 11
Land use 93, 233, 320	- acceptance 263	- recycling 54, 154, 160, 193	Reference posts 21, 91
Latex-modified concrete 179	- assurances, structural RRD 274	- rehabilitation 9, 25, 92, 134, 222	Reflection cracking 9, 92
Left-turn treatments 225	- certification 102, 263	- rut resistant (asphalt) 274	Regulations, driveway 304
Legal liability 106, 206, 318	- pavement marking 306	- sealers 209	Rehabilitation
Life-cycle costs 122, 269	- testing equipment 36, 263	- skid resistance 14, 158	- culverts 303
Lime-fly ash 37	Median	- smoothness 167	- freeways 25
Litter disposal 184	- barriers 244	- striping 17, 138, 218	- pavements 9, 56, 92, 99, 134, 204, 222
Load and resistance factor design (geotechnical) 276	- glare screen 66	- studded tires 32	- subgrades, stabilization 247
Location reference methods 21, 91	- widths 281	- subgrade stabilization 247	Relationships 297
Low-volume pavements 27, 260	Metropolitan planning organizations (MPOs) 217, 252	- surface texture 268	Research
Maintenance	Mileposts 21	- testing 235, 291	- contract 231
- bituminous pavements 30, 64, 98	Mitigation	- widening 28, 221	- implementation 23, 150
- bridges 88, 123, 200, 227, 257, 319	- ecology 302	Pedestrian traffic control 139	- management 113
- budgets 80	- lane occupancy 293	Performance evaluation 306	- partnerships 312
- concrete pavements 19, 45, 56, 60, 98, 204, 211	Modeling, 3D and 4D 229	Performance measures 238, 300, 311	- performance measures 300
- contract 125	Monitoring of projects 6, 263, 282	Performance-related specifications 212	- robust programs 280
- costs 58, 98, 223	Motorist aid systems 7	Permit operations 68, 143	Rest areas 20, 287, 317
- culverts 303	Motorist information 71, 162, 237	- driveway regulation 304	Resurfacing portland cement concrete 204
- deferred 58, 223	Multimodal transportation 201, 286	- effects on pavements 131	Retroreflectivity 304
- edgedrains 285	Needs studies 72, 151	Personnel	Right-of-way
- equipment 52, 283	New-product evaluation 90, 150, 265	- bridge inspection 141	- clearance 292
- freeways 1, 25, 170	Noise barriers 87, 181	- construction engineering 51, 145	- utilities 34, 224
- hazardous materials impacts 196	Noise characteristics of pavements 268	- maintenance 10	Risk assessment, hazardous materials 103
- litter disposal 184	Off-ramps 35	- planning for 120	Road pricing 210, 269
- management 10, 22, 46, 52, 58, 80, 110, 157, 173, 283	Open-graded surfaces 49, 104, 180, 284	- recruiting and maintaining 323	Roadside hazard severity 202
- management systems 110, 173	Outsourcing 246, 313	- S.E.E. assessment 40	Roadway
- pavement costs 77, 98	Overhead 315	- training 10, 11, 163, 188, 248, 313	- information systems 133
- pavement joints 19, 56, 98, 134, 211	Overlays 9, 49, 92, 99, 104, 116, 144, 204	Photographic traffic law enforcement 219, 310	- incident diversion practices 279
- pavements 9, 19, 25, 30, 45, 56, 60, 64, 98, 134	Overload effects 131	Photologging 94	- safety tools, localities 321
- personnel 10	Owner Controlled Insurance Programs 308	Pile foundations 42, 253	Routing, hazardous materials 261
- preventive, value of 153, 223	Painting steel bridges 136	Pipe durability 50, 254, 303	Rubber tire uses 198, 199
- quality assurance 148	Paint removal 176, 251	Planning	Rumble strips 191
- records 46	Park-and-ride facilities 213	- freight 230, 314, 320	
- recycling 54, 193	Parking demands, truck 317	- major events 309	Safety 1, 3, 7, 14, 32, 49, 66, 91, RRD 100, 128, 132, 156, 158, 182, 186, 191, 192, 202, 205, 244, 286, 299, 306, 308, 310, 318, 321
- reporting 46	Partnerships	- MPOs 217, 252	Safety analysis 295
- rest areas 20, 246	- research 312	- multimodal evaluation 201	Safety management systems 322
- scheduling 170	- public and private 313	- personnel 120	Scheduling of projects 6, 222, 243, 292
- signs 155, 157	Patching 9, 45, 64	- statewide transportation 15, 95, 286	Scour 5, 200
- snow and ice 24, 207	Pavements	- transit 69, 73	Sealers for PCC highway facilities 209
- traffic control 1, 25, RRD 100, 208	- asphalt 30, 49, 59, 116, 152, 160, 171, 175, 180, 260, 284	- transportation 73, 201	Sedimentation basins 18, 70
- traffic signals 22, 114, 245	- bases 37	Poor, transportation for 39	Severity indices 202
- training 10	- concrete 16, 19, 27, 44, 56, 60, 99, 144, 204, 211	Posting of bridges 108	Shoulders 63
- tunnels 31	- condition data 76, 126, 203	Pothole repair 45, 64	Signs
- winter 24, 207	- construction 16, 19, 27, 30, 44, 211	Pozzolans 37, 127, 199	- advance warning 186
Management	- CRCP 16, 60	Precast concrete 53, 119, 324	- changeable message 61, 237
- construction 51, 145	- design 189, 260, 291	Prefabricated structural systems 119	- maintenance 155, 157
- contract 168	- distress 9	Preferential lane treatments 185	- motorist information 71, 162
- corridor plans 289	- drainage 96, 239	Preservation, historic bridges 275	Size regulation and enforcement 68, 143
- data 55	- durability 59, 160, 274	Prestressed concrete durability 140	Skid resistance 14, 158, 291
- freeway corridor 177	- effects of overloads 131	Preventive maintenance 153, 223	Sleep deprivation 286
- freeway incidents 156	- evaluation 76, 126, 203	Priority programming 48, 84, 222	Smoothness, pavements 167
- maintenance 10, 22, 46, 52, 58, 80, 110, 170, 173, 245	- fabrics 171	Private sector involvement 149, 246, 265, 313	Snow and ice control 24, 207
- maintenance, environmental issues 272	- friction 14, 158, 291	Process management 300	Soft foundations 29, 147
	- friction courses 49, 104, 180, 284	Professional engineering services	Soils
	- frost design 26	- construction 146	- erosion 18
		- design 277	- measuring, in-situ 278
		- negotiating 137	- remediation of contaminated 226
		Programming 48, 72, 84, 151, 243	
		Program quality 300	
		Project development 273, 292	
		Project scheduling 6, 215, 243, 282	

Table 5 (continued)

Specifications 38, 65, 212, 306	Telephones 12, 165	- priority lanes 185	- trip generation 298
Spectrum management 13	Testing	- ramps 35	- truck weights and sizes 68, 82, 124, 143
Stabilization	- construction 36, 65, 263	- red light cameras 31	Tunnels, maintenance and operation 31
- bases 37	- rapid 187	- signal systems 245	
- subbases 247	- soils (in-situ) 278	- systems development 307	Underwater bridge inspection 88
Staffing	- equipment 36, 187	- work zones 1, RRD 100, 208	Underwater bridge repair 88, 200
- construction 51, 145, 263	- pavements 235, 291, 325	Traffic signals	Urban freeways 25, 273
- maintenance 10	Toll	- equipment 166	Utilities 34, 115, 242
- planning for 120	- collection 194	- left turns 225	
- S.E.E. assessments 40	- financing 117	- maintenance 22, 114, 245	Value engineering 78
Standards, travel survey 236	- plaza design 240	- preemption (rail) 271	Variable message signs 61, 237
- historic bridges 275	- practices 262	- timing 172	Vehicle attenuators 182
Statewide transportation planning 15, 95, 267, 286	Tort liability 106, 206, 265	Training of personnel 10, 11, 163, 188, 248	Vehicles, larger 281
Statistical methods 295	Traffic	Transit	Vibration from piles 253
Statistical specifications 38, 65, 212, 232	- congestion 314	- boards 75	Vibration of concrete 44
Stormwater management 174	- data collection 130	- elderly/handicapped 39, 83	Video traffic law enforcement 219
Stream scour 5, 200	- incident clearance, quick 318	- management assistance 74	Visibility 228
Striping 17, 138, 218	- law enforcement 219, 310	- ownership 97	Visualization 3D and 4D 229
Structures (see bridges)	- markings 17, 138, 218	- planning 69, 73	
Studded tires 32	- paint 17, 138, 218	Transportation	Warranties in construction 195
Subbases 37	- safety 1, 3, 32, 35, 66, RRD 100, 202, 205, 244	- development process 267	Waste materials RRD 106, 199
Subgrades, stabilization 247	Traffic control	- economic benefits 290	Waterproofing membranes for bridge decks 220
Subsurface information 33, 255	- circles 264	- investment 290	Weather 47
Superplasticizers for concrete 129	- configuration management 294	- management centers 270	Weigh-in-motion 124
Surface courses 49, 104, 180, UR24-07	- construction RRD 100, 208	- planning 15, 72, 73, 95, 151, 201, 230, 252	Weight regulation and enforcement 68, 82, 124, 143
Surveying, GPS satellite 258, 301	- devices 61, 166, 186, 237	- system management 81, 93, 259	Wetland mitigation 302
Systems, maintenance 283	- equipment 166	Travel surveys 236	Widening of pavements 28, 221
Systems, traffic control 307	- left-turn treatments 225	Truck	Wildlife 305
	- maintenance 1, RRD 100, 208, 245	- escape ramps 178	Winter maintenance 24, 207
	- management centers 270	- increasing traffic 314	Work schedules 73
	- management plans 294	- operating characteristics 241	Work zone traffic 1, RRD 100, 208
Taxes, fuel 62, 164	- pedestrian 139	- parking demands 317	
Technology transfer 23, 150, 216, 231, 280	- plans 208		
Telecommunications 12, 165
