Designed for Implementation and Impact

SHRP 2 Products and Procedures
The Transportation Research Board is one of six major divisions of the National Research Council, which serves as an independent adviser to the federal government and others on scientific and technical questions of national importance, and which is jointly administered by the National Academy of Sciences, the National Academy of Engineering, and the Institute of Medicine. The mission of the Transportation Research Board is to provide leadership in transportation innovation and progress through research and information exchange, conducted within a setting that is objective, interdisciplinary, and multimodal. The Board’s varied activities annually engage about 7,000 engineers, scientists, and other transportation researchers and practitioners from the public and private sectors and academia, all of whom contribute their expertise in the public interest. The program is supported by state transportation departments, federal agencies including the component administrations of the U.S. Department of Transportation, and other organizations and individuals interested in the development of transportation.

The National Research Council was organized by the National Academy of Sciences in 1916 to associate the broad community of science and technology with the Academy’s purposes of furthering knowledge and advising the federal government. Functioning in accordance with general policies determined by the Academy, the Council has become the principal operating agency of both the National Academy of Sciences and the National Academy of Engineering in providing services to the government, the public, and the scientific and engineering communities.

TRANSPORTATION RESEARCH BOARD 2013 EXECUTIVE COMMITTEE*

Chair: Deborah H. Butler, Executive Vice President, Planning, and CIO, Norfolk Southern Corporation, Norfolk, Virginia
Vice Chair: Kirk T. Steudle, Director, Michigan Department of Transportation, Lansing
Executive Director: Robert E. Skinner, Jr., Transportation Research Board

Victoria A. Arroyo, Executive Director, Georgetown Climate Center, and Visiting Professor, Georgetown University Law Center, Washington, D.C.
Scott E. Bennett, Director, Arkansas State Highway and Transportation Department, Little Rock
William A. V. Clark, Professor of Geography (emeritus) and Professor of Statistics (emeritus), Department of Geography, University of California, Los Angeles
James M. Crites, Executive Vice President of Operations, Dallas–Fort Worth International Airport, Texas
Malcolm Dougherty, Director, California Department of Transportation, Sacramento
John S. Halkiowski, Director, Arizona Department of Transportation, Phoenix
Michael W. Hancock, Secretary, Kentucky Transportation Cabinet, Frankfort
Susan Hanson, Distinguished University Professor Emerita, School of Geography, Clark University, Worcester, Massachusetts
Steve Hemenue, Executive Director, Metropolitan Transportation Commission, Oakland, California
Chris T. Hendrickson, Duquesne Light Professor of Engineering, Carnegie Mellon University, Pittsburgh, Pennsylvania
Jeffrey D. Holt, Managing Director, Bank of Montreal Capital Markets, and Chairman, Utah Transportation Commission, Huntsville, Utah
Gary P. LaGrange, President and CEO, Port of New Orleans, Louisiana
Michael P. Lentz, Director, Rhode Island Department of Transportation, Providence
Joan McDonald, Commissioner, New York State Department of Transportation, Albany
Donald A. Osterberg, Senior Vice President, Safety and Security, Schneider National, Inc., Green Bay, Wisconsin
Steve Palmer, Vice President of Transportation, Lowe’s Companies, Inc., Mooresville, North Carolina
Sandra Rosenbloom, Professor, University of Texas, Austin (Past Chair, 2012)
Henry G. (Gerry) Schwartz, Jr., Chairman (retired), Jacobs/Sverdrup Civil, Inc., St. Louis, Missouri
Kumares C. Sinha, Olson Distinguished Professor of Civil Engineering, Purdue University, West Lafayette, Indiana
Daniel Sperling, Professor of Civil Engineering and Environmental Science and Policy; Director, Institute of Transportation Studies, University of California, Davis
Gary C. Thomas, President and Executive Director, Dallas Area Rapid Transit, Dallas, Texas
Paul Trombino III, Director, Iowa Department of Transportation, Ames
Phillip A. Washington, General Manager, Regional Transportation District, Denver, Colorado
Rebecca M. Brewster, President and COO, American Transportation Research Institute, Marietta, Georgia (ex officio)
Anne S. Ferro, Administrator, Federal Motor Carrier Safety Administration, U.S. Department of Transportation (ex officio)
John T. Gray II, Senior Vice President, Policy and Economics, Association of American Railroads, Washington, D.C. (ex officio)
Michael P. Huerta, Administrator, Federal Aviation Administration, U.S. Department of Transportation (ex officio)
Paul N. Jaenichen, Sr., Acting Administrator, Maritime Administration, U.S. Department of Transportation (ex officio)
Michael P. Melaniphy, President and CEO, American Public Transportation Association, Washington, D.C. (ex officio)
Victor M. Mendez, Administrator, Federal Highway Administration, U.S. Department of Transportation (ex officio)
Robert J. Papp (Adm., U.S. Coast Guard), Commandant, U.S. Coast Guard, U.S. Department of Homeland Security (ex officio)
Lucy Phillips Pridgy, Research Civil Engineer, U.S. Army Corps of Engineers, Vicksburg, Mississippi, and Chair, TRB Young Members Council (ex officio)
Cynthia L. Quartersman, Administrator, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation (ex officio)
Peter M. Rogoff, Administrator, Federal Transit Administration, U.S. Department of Transportation (ex officio)
Craig A. Rutland, U.S. Air Force Pavement Engineer, Air Force Civil Engineer Center, Tyndall Air Force Base, Florida (ex officio)
David L. Strickland, Administrator, National Highway Traffic Safety Administration, U.S. Department of Transportation (ex officio)
Joseph C. Szabo, Administrator, Federal Railroad Administration, U.S. Department of Transportation (ex officio)
Polly Trottenberg, Under Secretary for Policy, U.S. Department of Transportation (ex officio)
Barry R. Wallerstein, Executive Officer, South Coast Air Quality Management District, Diamond Bar, California (ex officio)
Gregory D. Winfree, Administrator, Research and Innovative Technology Administration, U.S. Department of Transportation (ex officio)
Frederick G. (Bud) Wright, Executive Director, American Association of State Highway and Transportation Officials, Washington, D.C. (ex officio)

* Membership as of December 2013.
SHRP 2 IMPACTS AND IMPLEMENTATION

3 INTRODUCTION
Research Designed for Implementation and Historic Impact
Ann M. Brach
The second Strategic Highway Research Program is releasing products and procedures for drastically reducing the numbers of injuries and fatalities on highways; expediting the delivery of highway projects; and minimizing the negative impacts of congestion.

5 Imagining the Second Strategic Highway Research Program in Action: A Product Showcase Scenario
Neil Hawks
Late in 2011, SHRP 2 staff and researchers negotiated the initial turn from research to implementation and developed a scenario featuring an imaginary highway corridor to illustrate real-world applications of various SHRP 2 products and how they might work together to meet an agency's needs.

11 SHRP 2 RENEWAL FOCUS AREA
Lasting Renewal with Minimal Disruption: Building a Highway Network into the Future
Catherine Nelson and Steven DeWitt
The SHRP 2 Renewal focus area has developed a suite of products across five project areas: pavements, bridges, utilities and railroads, nondestructive testing, and project delivery. The products are designed to minimize traffic disruptions, promote traffic and worker safety, and accelerate project delivery for long-lasting facilities.

16 Accelerating Bridge Delivery in Vermont: Traffic, Construction, Safety, and Economic Benefits
Wayne Symonds

17 Avoiding Project Delays from Utility Conflicts: Maryland Applies a Procedural Matrix
Nelson P. Smith, Jr.

18 Long-Lasting Pavement Solution for an Interstate: Guide Helps Washington State Meet Project Goals
Jeffrey S. Uhlmeyer

19 Building Green with Precast and Composite Pavements: Illinois Tollway's Experience
Steven Gillen

21 SHRP 2 CAPACITY FOCUS AREA
Maximizing Highway Capacity: Strategic Initiatives Address Collaboration, the Environment, the Economy, and Travel Needs
Mark Van Port Fleet
To meet the needs for highway expansion, the SHRP 2 Capacity focus area has developed tools and resources for collaborative decision making, ecological approaches to integrating environmental protection and transportation planning, understanding the economic impacts of highway investments, and the analysis of travel demand.

22 Improving the Planning and Delivery of Highway Capacity Projects: Decision-Support System Emphasizes Collaboration
Janet D'Ignazio and Beverly Bowen

Shara Howie, Shannon Cox, and Shari Schaftlein

26 Improving Analysis Tools for Passenger Travel
Tom Rossi and Gordon Garry

27 Understanding the Impact of Highway Capacity Projects on the Economy
Glen Weisbrod and Steven Fitzroy

29 SHRP 2 RELIABILITY FOCUS AREA
Providing Reliable Travel Times on the Highway System
Carlos Braceras
The Reliability projects aim to provide highway users with reliable travel times by preventing and reducing the impacts of nonrecurring congestion. Initiatives assist agencies in organizing to address travel time reliability, analyze data, and incorporate reliability into planning, programming, and design; the focus area also fosters innovations.
features articles on innovative and timely research and development activities in all modes of transportation. Brief news items of interest to the transportation community are also included, along with profiles of transportation professionals, meeting announcements, summaries of new publications, and news of Transportation Research Board activities.

32 Fostering Innovation to Enhance Travel Time Reliability
Leslie Spencer Fowler

33 Piloting Reliability Research: Four States Apply Products to Projects Under Way
Chris Williges, Mohammed Hadi, Mike Sobolewski, Yinhai Wang, and John Nisbet

35 Coordinating Traffic Incident Management: Curriculum Yields Promising Results Nationwide
Richard Phillips

36 SHRP 2 SAFETY FOCUS AREA
This Ain’t Your Grandma’s Safety Research:
Naturalistic Driving Study Yields Long-Sought Data
Forrest M. Council

The SHRP 2 Naturalistic Driving Study has combined technologies to gather objective, scientific information about what happens before a crash, when drivers experience a near-crash, and when drivers drive without incident. These data will help scientists, engineers, policy makers, and educators make significant improvements in highway safety.

39 Ensuring the Long-Term Stewardship of the Safety Data
Joseph L. Schofer

40 SHRP 2 IN TRANSITION
Moving Research Results into Implementation
Kirk Steudle

To achieve the routine use of SHRP 2 products by state departments of transportation and other agencies, the Federal Highway Administration and the American Association of State Highway and Transportation Officials are working to enlist a critical mass of early adopters to use the products and to establish a model for others to follow.

41 Assistance Program Accelerates Implementation
Amy Lucero

42 From Concept to Countermeasure:
Applying Early Findings from the Naturalistic Driving Study
Pamela A. Hutton

COMING NEXT ISSUE

A boom in the domestic energy industry is having an impact on transportation infrastructure—a feature in the January–February 2014 issue of TR News examines the effects on low-volume roadways in Texas, and sidebars present reports from Iowa and Pennsylvania. Other features offer practical findings from a 26-state pooled-fund study on winter maintenance challenges; the mega-project under way to replace the Gerald Desmond Bridge in the Port of Long Beach, California; and implementation of SHRP 2 accelerated bridge construction pilot projects in New York and Iowa. Also included is the annual roundup of innovative approaches and trends gathered from the 2013 state partnership visits by TRB senior program officers—and more.

The Clear Roads pooled-fund study included research to identify high-risk drivers typically involved in winter-related crashes and developed a targeted educational campaign.
