

TRANSPORTATION RESEARCH BOARD'S

IDEA Programs

FUNDING FOR INVENTORS

The IDEA Mission:

Awards start-up funding for promising but unproven innovations in transportation practice.

Fosters new ideas that have potential to advance transportation practice.

Provides support at a critical early stage when funding can be hard to find.

Is open to everyone to submit proposals.

CURRENT IDEA PROGRAMS

Highway IDEA: A project of the National Cooperative Highway Research Program and funded by the state departments of transportation, NCHRP IDEA seeks advances in construction, safety, maintenance, and management of highway systems. Pavement and bridge performance, environment, and resource conservation are also focus areas of the program. Proposals due March 1 and September 1.

Rail Safety IDEA: Funded by the Federal Railroad Administration, Rail Safety IDEA projects promote innovative approaches to improving railroad safety or performance. Some examples of possible focus areas include high-speed rail, intercity passenger rail, and freight railroads. Proposals due September 15.

Transit IDEA: Funded by the Federal Transit Administration as part of the Transit Cooperative Research Program, the Transit IDEA program seeks advances in efficiency, safety, security, and maintenance of transit systems. Four high-priority innovation areas are improving transit relevance in the context of mobility management; satisfying current and anticipated customer needs; improving transit safety, security, and viability; and delivering equitable, accessible, and environmentally responsible services. Proposals due May 1.

TWO TYPES OF IDEA PROJECTS:

Concept Exploration Projects (Type 1)

IDEA programs may award funding to test the validity of innovative concepts with potential applications for transportation practice. **Funding for concept exploration varies but does not exceed \$150,000.**

Prototype Application Projects (Type 2)

IDEA projects may also be funded to demonstrate prototype applications in transportation practice. **Funding for Type 2 projects varies but does not exceed \$100,000.**

FREQUENTLY ASKED QUESTIONS

Q: What can I do to improve my proposal?

A: Strive for clarity in describing both your innovation and the problem it addresses.

Q: Does an IDEA contract compromise my ability to get a patent?

A: No. IDEA does not retain any rights to your invention. Researchers should independently secure their intellectual property rights.

Q: Is it OK to contact the program officers directly with questions?

A: Yes.

Q: Where can I find information on preparing proposals?

A: Evaluation criteria, advice from selection committee chairs, and answers to many other questions are online at: <http://www.trb.org/IDEAProgram/IDEAProgram.aspx>

The IDEA programs are administered by the Transportation Research Board (TRB), part of the National Academies of Sciences, Engineering, and Medicine. Any opinions and conclusions expressed or implied in resulting research products are those of the individuals and organizations who performed the research and are not necessarily those of TRB; the National Academies of Sciences, Engineering, and Medicine; or IDEA program sponsors.
