Equity in Transportation Committee (AME10)

Wednesday, Jan 08, 2025 8:00AM - 12:00PM, Independence Salon E (M4) / Marriott Marquis

Scope: This committee focuses on the practices, policies, and research needs to provide access to options of reliable, affordable transportation to all transportation users, including users in rural, low-density, low-income, and disadvantaged communities. It will also consider transportation practices and research affecting health, cultural, social, and economic factors of sustainable mobility through localities and regions.

Co-Chair: Tracee Strum-Gilliam

tstrum-gilliam@prrbiz.com

Women and Gender in Transportation Committee (AME20)

Tuesday, Jan 07, 2025 1:30PM - 5:30PM, Independence Salon E (M4) / Marriott Marquis

Scope: The purpose of this committee is to illuminate the importance of gender differences in all aspects of transportation. The committee's work includes identifying emerging gender issues in the field of transportation related to both technical and career matters; defining research needs related to these issues; and stimulating, gathering, and disseminating relevant research findings.

Chair: Hilary Nixon

hilary.nixon@sjsu.edu

Native American Transportation Issues Committee (AME30)

Tuesday, Jan 07, 2025 1:30PM - 5:30PM, Independence Salon D (M4) / Marriott Marquis

Scope: This committee is concerned with research and practice pertaining to transportation issues on or near tribal lands and communities or affecting tribal historical or cultural properties wherever located. Tribal transportation issues include all modes of moving people and goods from one place to another, all relevant agencies, including tribal, state, federal, regional and local providers, and all relationships and interactive processes of various governmental units -tribal, federal, state, and local - with regard to the development, planning, administration, coordination, and implementation of transportation laws, policies, plans, programs, and projects.

Chair: Sheri Bozic

Transportation in the Developing Countries Committee (AME40)

Tuesday, Jan 07, 2025 8:00AM - 12:00PM, Independence Salon E (M4) / Marriott Marquis

Scope: This committee will foster research, global communications and interaction, and avenues for transfer of intellectual technology on issues related to transportation in the developing countries. Emphasis will be on integrated planning and implementation strategies which consider the appropriate role for all modes: Public transport, MVs, NMVs and Pedestrians, and include the consideration of economic, environmental and social issues as well as the framework of administrative reform and management, private-public sector roles, environmental management, needs of the poor, and the need for appropriate mix of modes for urban and regional transport.

Chair: Manjiri Akalkotkar

Accessible Transportation and Mobility Committee (AME50)

Monday, Jan 06, 2025 1:30PM - 5:30PM, Independence Salon D (M4) / Marriott Marquis

Scope: This committee will study problems relating to the transportation disadvantaged and the services that various modes of transportation should provide for them as well as an assessment of the impact and value of programs directed at improving their mobility.

Co-Chair: Todd Hansen

t-hansen@tti.tamu.edu

Co-Chair: Judy Shanley

jshanley@easterseals.com

Historic and Archeological Preservation in Transportation Committee (AME60)

Wednesday, Jan 08, 2025 8:00AM - 12:00PM, Howard University (M1) / Marriott Marquis

Scope: This committee will consider the laws, regulations, policies, and procedures for the preservation of historic structures and archeological materials, information, and cultures.

Chair: Mary Tinsman

malfson@jmt.com

Transportation and Public Health Committee (AME70)

Tuesday, Jan 07, 2025 8:00AM - 12:00PM, Independence Salon D (M4) / Marriott Marquis

Scope: This committee is concerned with the relationship between transportation and public health. Topics of interest include, but are not limited to: active transportation; transportation's role in the delivery of health care; effects of transportation-generated air, water, and noise pollution on health; and health impacts and interactions of federal, state, regional and local transportation policies, procedures and actions.

Chair: Ipek Sener

i-sener@tti.tamu.edu

Community Resources and Impacts Committee (AME80)

Monday, Jan 06, 2025 8:00AM - 12:00PM, Howard University (M1) / Marriott Marquis

Scope: The Community Resources and Impacts Committee is concerned with contemporary research regarding practices, methods, data, and tools for assessing and quantifying the relationship of transportation investments with community resilience, equity and sustainability.

Chair: Veronica Murphy
