

VEHICLE AUTOMATION IN TRANSIT

WHAT ARE YOUR THOUGHTS?

You are invited to participate in a research survey led by the Texas A&M Transportation Institute (TTI). The research is examining the possible effects of vehicle automation on the public transportation workforce.

We're looking for transit employees who work in **bus** operations, maintenance, management, and administration, including:

- Operators
- Mechanics and Technicians
- Fuelers and Cleaners
- Supervisors
- Trainers
- Dispatchers
- Planners/Schedulers
- Managers
- Police and Security Personnel
- Others

The survey should take less than 15 minutes.

Go to <https://tinyurl.com/TransitAutomation> to start the survey or scan the QR code on this flyer.

Participation is voluntary and confidential.

Questions about the survey or the research?

Contact Michael J. Walk at m-walk@tti.tamu.edu or at 512-407-1135.
