

TRANSPORTATION RESEARCH BOARD

Training Operations Personnel at Small Airports

September 13, 2021

@NASEMTRB
#TRBWebinar

Learning Objectives

1. Discuss training methodologies
2. Describe all aspects of training, including styles, motivations, curriculum design, training topics, methods, and budgets

American Association of Airport Executives (AAAE)

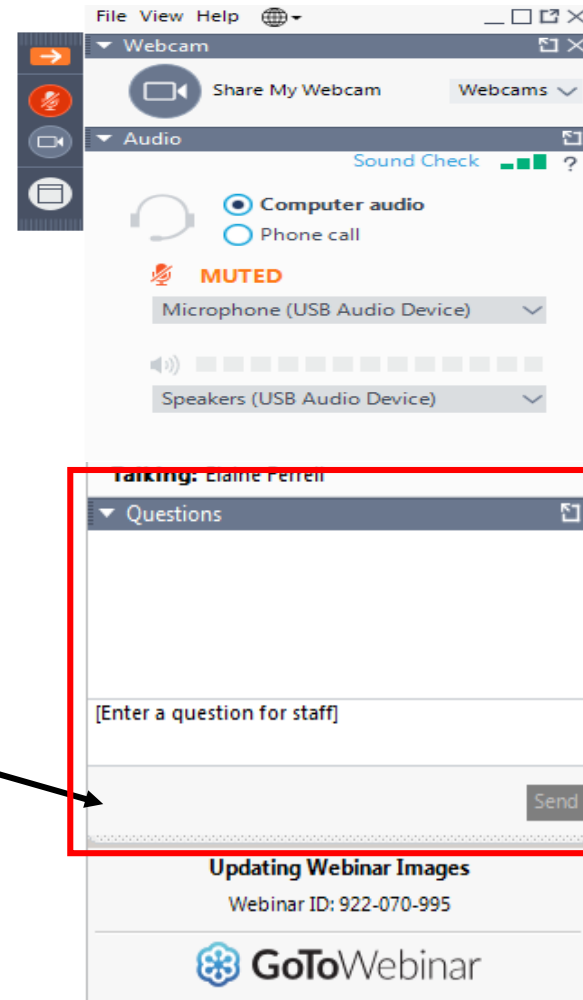

1.0 Continuing Education Units (CEUs) are available to Accredited Airport Executives (A.A.E.)

Report your CEUs: www.aaae.org/ceu

Questions and Answers

- Please type your questions into your webinar control panel
- We will read your questions out loud, and answer as many as time allows

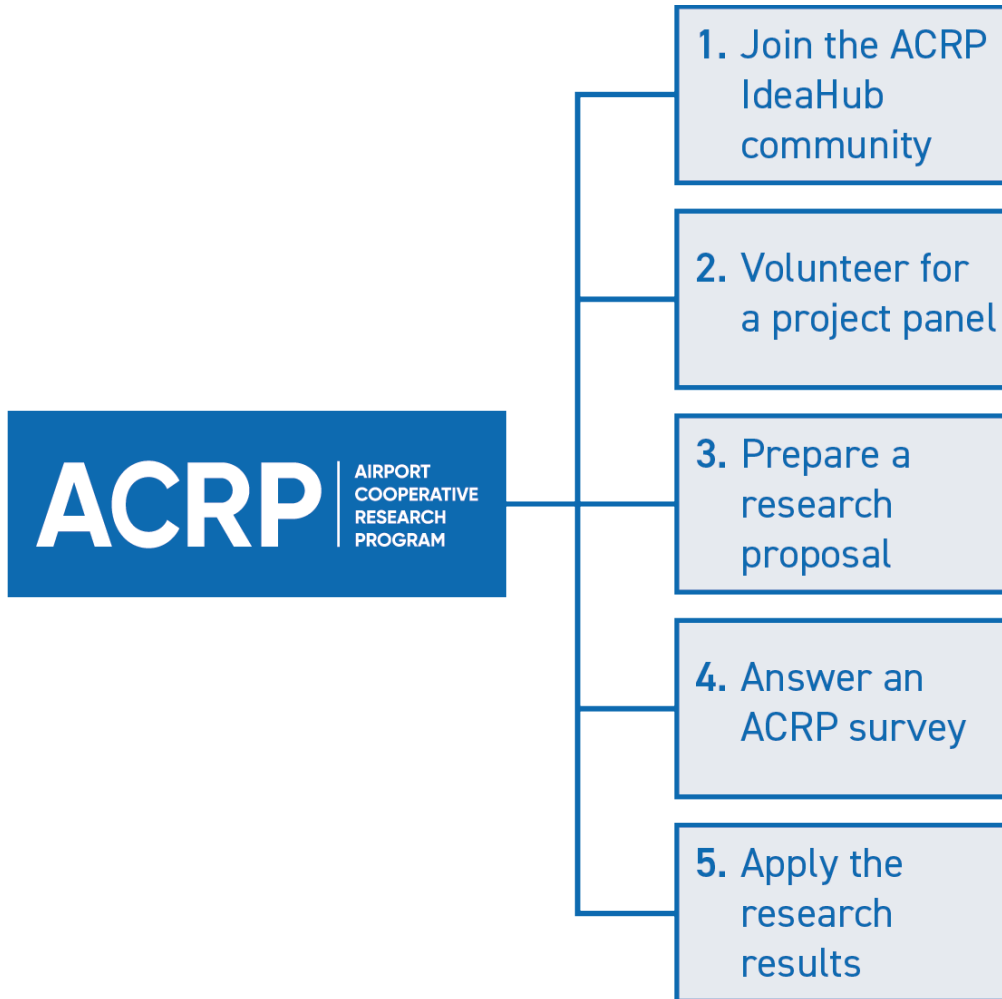

Adam Wolf

The Ohio State University Airport

- OSU Airport -Airport Director.
- Embry-Riddle Aeronautical University-2006.
BS Aeronautics, Minors in Aviation Business,
Aviation Safety and Meteorologically
- AAAE- CM, ACE Ops, ACE Security
- Private Pilot w/Instrument Rating
- UAS 107 Operator
- Certified Weather Observer
- Previous Experience
 - CMH – Airport Operations
 - PANYNJ- Airport Operations and
Finance roles

Five Ways to Get Involved!

Today's Speakers

Dr. Daniel Prather, DPrather Aviation Solutions

and

Joseph Goetz, Quad Cities International Airport

Presenting

ACRP Synthesis 112: Airport Operations
Training at Small Airports

Airport Operations Training at Small Airports

C. Daniel Prather, Ph.D., D.B.A., A.A.E., CAM
DPrather Aviation Solutions
California Baptist University

Joseph Goetz C.M., A.C.E.
Quad Cities International Airport

C. Daniel Prather, Ph.D., D.B.A., A.A.E., CAM

Principal Investigator

- **Consultant**
 - DPrather Aviation Solutions
- **Founder**
 - PDPCredit.com
- **Professor**
 - California Baptist University
- **Former Assistant Director of Operations**
 - Hillsborough County Aviation Authority (TPA)
- **Accredited Airport Executive (AAAE)**
- **Certified Aviation Manager (NBAA)**

Joseph Goetz C.M., A.C.E.

Airport Operations Manager (Case Example)

- 2010-2016
 - Bellingham International Airport
 - Operations/ARFF
- 2016-2020
 - Crater Lake – Klamath Regional Airport
 - Airport Operations Manager
- 2020-Current
 - Quad Cities International Airport
 - Airport Operations Manager
- Certified Member
- Airport Security Coordinator
- A.C.E. – Operations
- A.C.E. - Security

ACRP Synthesis 112 Topic Panel

- Scott Ayers, City of Atlanta Department of Aviation, Atlanta, GA
- Kimberly A. Kenville, University of North Dakota, Grand Forks, ND
- Harleen Smith, City of Houston–Houston Airport System, Houston, TX
- Lauren Tapia, Truckee Tahoe Airport, Truckee, CA
- Ashly “Jerry” Tissera, JTA Consulting LLC, Aston, PA
- Adam Wolf, Ohio State University Airport, Columbus, OH
- Dale A. Williams, FAA Liaison
- Christopher J. Oswald, Airports Council International–North America Liaison

Learning Objectives

- **Understand challenges related to airport operations training.**
- **Interpret project results.**
- **Understand airport case examples, including innovative approaches that may be adopted by your airport.**
- **Formulate action steps from findings.**

Introduction

- **Perennial challenges of efficiently training airport operations personnel to ensure a safe and secure airport.**
 - Limited resources.
 - Need for standardization.
 - Employee turnover.
 - Lack of designated trainer.
 - Boring content.
 - Disengaged employees.
 - Initial and recurrent training.

LITERATURE REVIEW

The National Academies of
SCIENCES • ENGINEERING • MEDICINE

TRB
TRANSPORTATION RESEARCH BOARD

ACRP | AIRPORT
COOPERATIVE
RESEARCH
PROGRAM

Topics Included

- **Adult learning styles**
- **Learner motivation**
- **General learning preferences**
- **Initial and recurrent training**
- **Professional development**
- **Training needs assessment**
- **Training curriculum design**
- **Training materials**
- **Training manual**

Topics Included

- **Training budgets**
- **Training timelines**
- **Benefits and disadvantages of training**
- **Training methods**
- **Training records**
- **Trainer qualifications**
- **Training assessment**
- **Proof of training competency and completion**

Baby Boomers (born 1946-1964)

Train:

- **Use facilitated, instructor-led learning with handouts.**

Examples:

- **Lecture**
- **Detailed handouts**
- **Note-taking**
- **Personal stories related to content**

Generation X (born 1965-1980)

Train:

- **Include games and case studies with real-world feel. Provide clear instructions. Explain how training benefits them.**

Examples:

- **Distance learning**
- **Self-paced and independent instruction**
- **Detached study guides and test reviews**

Millennials (born 1981-2000)

Train:

- **Highly visual and expect technology to be integrated with learning. With short attention spans, they benefit from bite-sized learning.**

Examples:

- **Simulations with immediate feedback**
- **Group activities include problem solving**
- **Creative interactive exercises (i.e., Jeopardy-style team games)**

Generation Z (born after 2000)

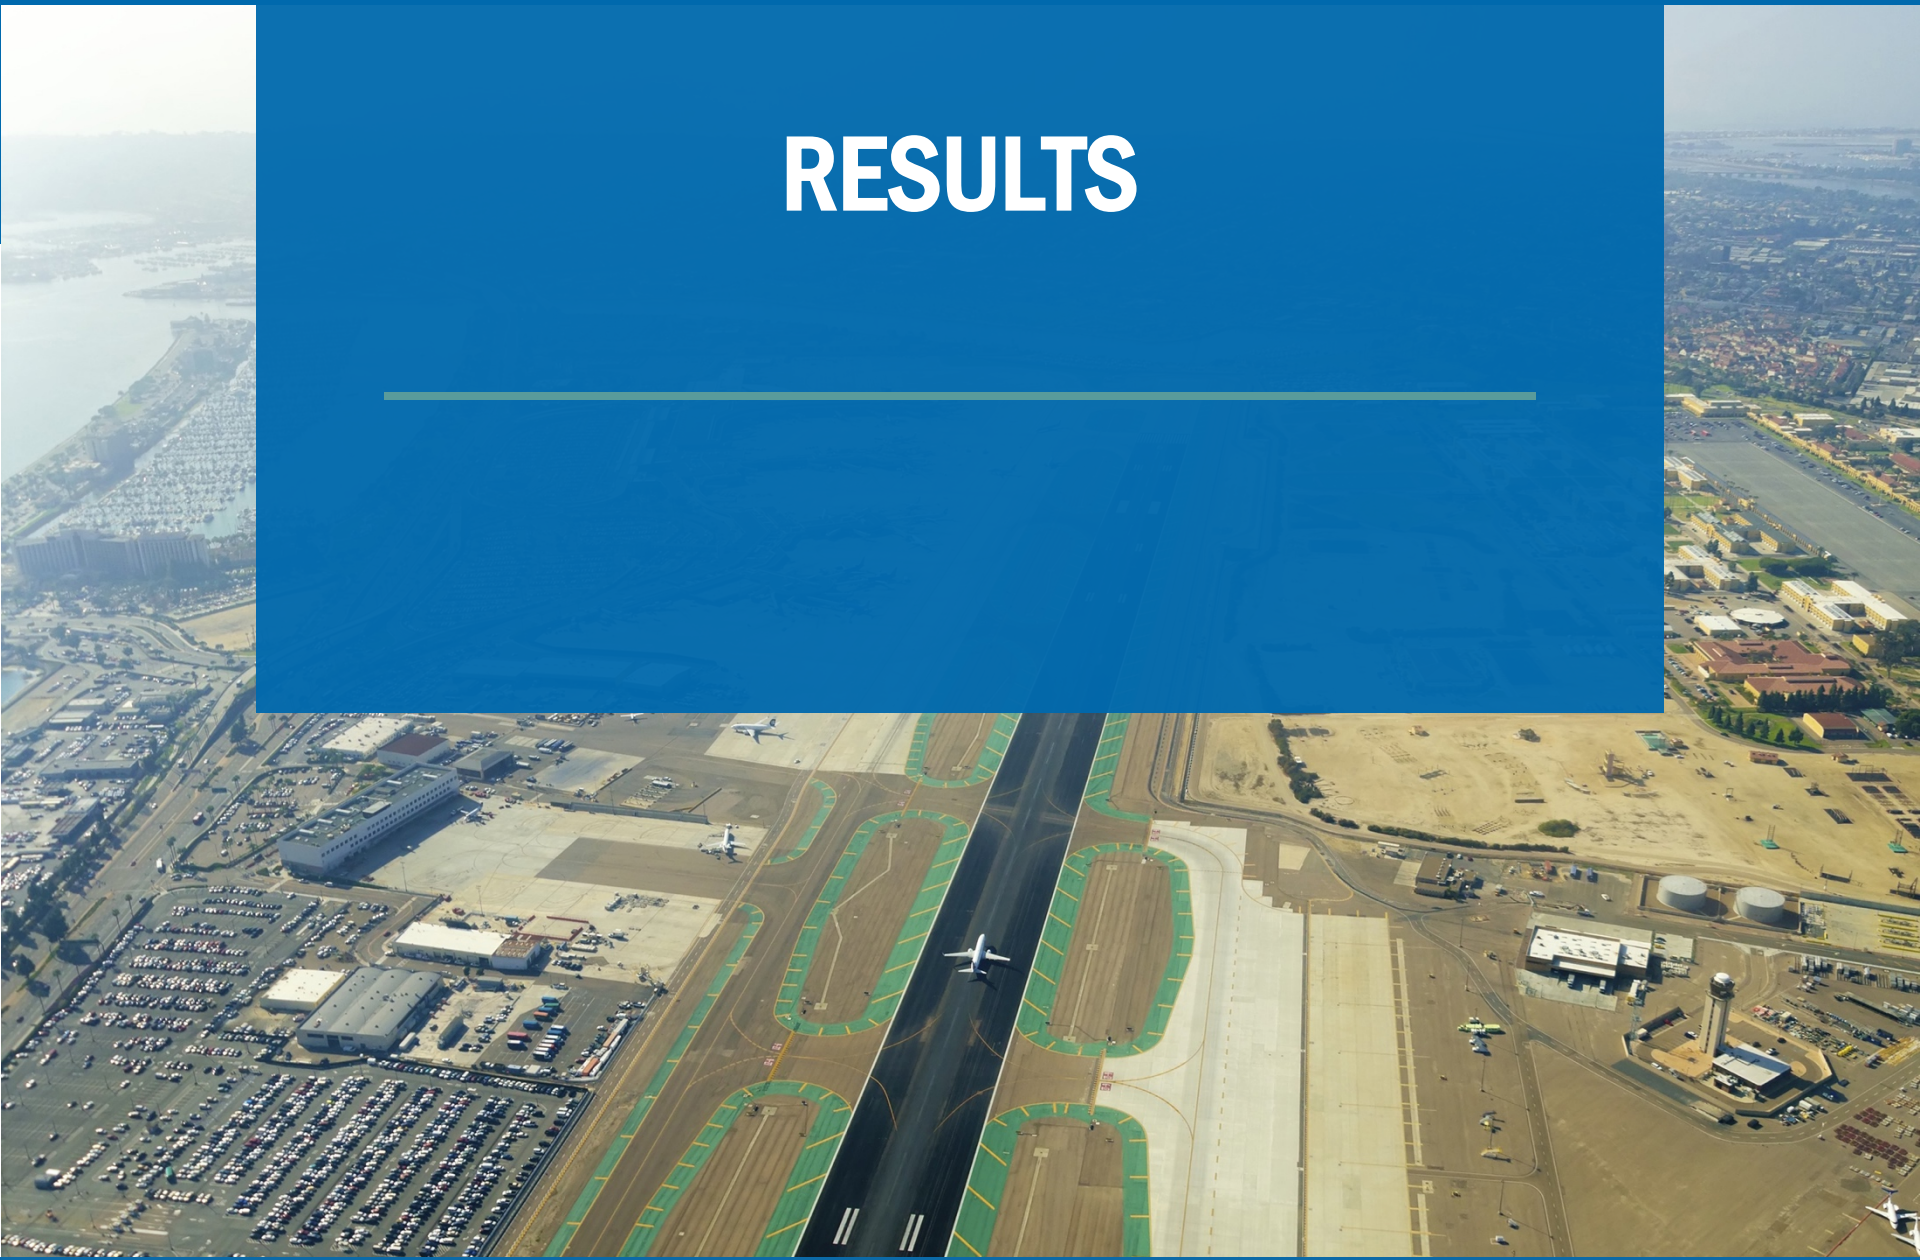

Train:

- **Benefit from taking part in the training process, to include role playing, creating videos, and integrating social media. Short attention spans and very accustomed to digital exploration and training methods.**

Examples:

- **Computer-based training**
- **Online courses**
- **Opportunity to search intent for answers**

Average Airport Training Budget

NPIAS Category	Low	Average	High
Large hub	\$9,000	\$220,583	\$1,500,000
Medium Hub	\$3,000	\$26,700	\$60,000
Small hub	\$2,500	\$20,926	\$70,000
Nonhub	\$500	\$13,168	\$150,000
Nonprimary	0	\$833	\$1,500
Reliever	0	\$4,000	\$12,500
GA	0	\$13,278	\$200,000

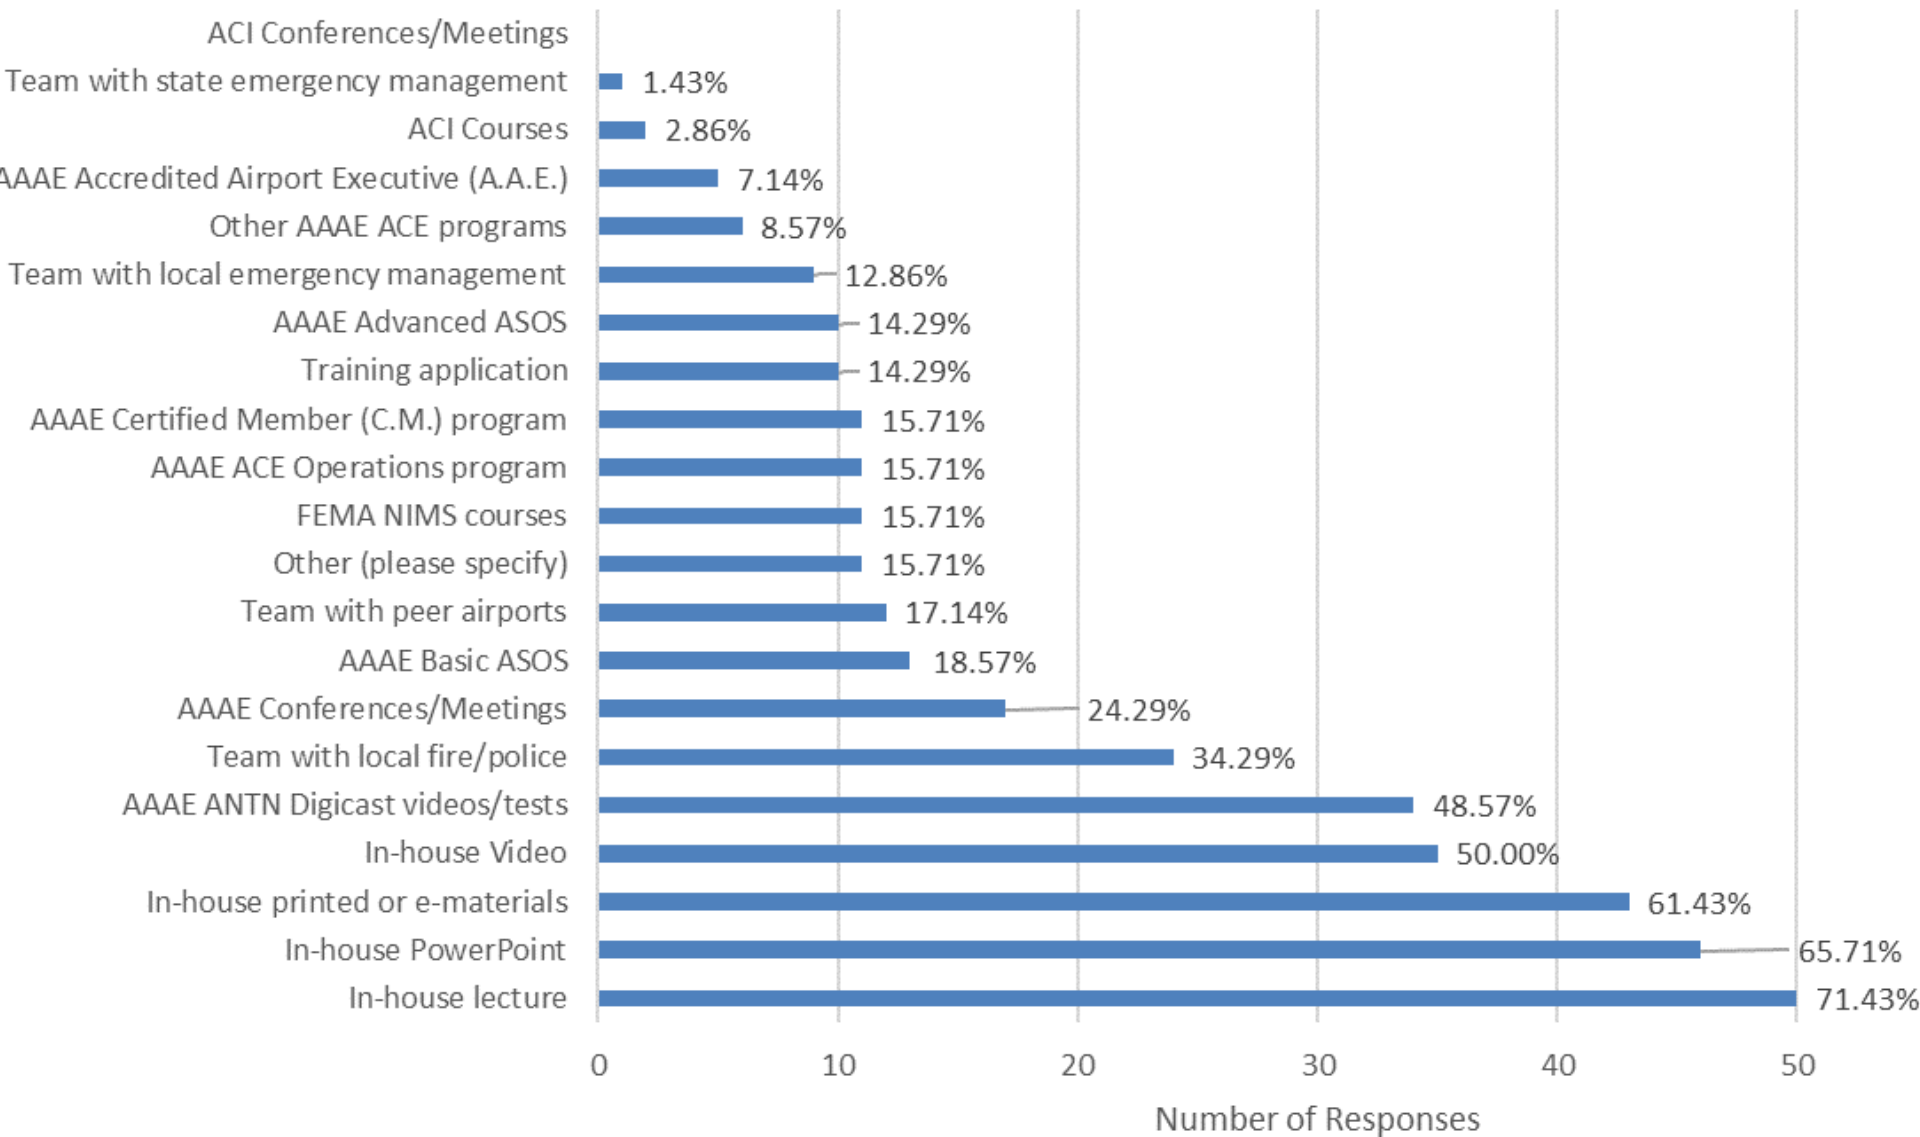

Training Methods - Small Airports

Sources of Initial Training - Small Airports

Sources of Recurrent Training - Small Airports

Training Topics

- 1. Airfield self-inspections**
- 2. Airfield familiarization**
- 3. Wildlife hazard management**
- 4. Airport emergency plan**
- 5. Movement area**
- 6. Airfield nightly inspections**
- 7. Aeronautical radio procedures**
- 8. Airport rules or regulations**
- 9. NOTAMs**
- 10. Airport standard operating procedures**

TRB
TRANSPORTATION RESEARCH BOARD

ACRP | AIRPORT
COOPERATIVE
RESEARCH
PROGRAM

Case	Airport	Location	Airport Size	Practice
1	Columbus International Airport	Columbus, OH	Med hub	6-week training program
2	Wichita National Airport	Wichita, KS	Small hub	Interactive courses
3	Fort-Lauderdale Hollywood Intl	Ft. Lauderdale, FL	Large hub	Computer-based learning

Case	Airport	Location	Airport Size	Practice
4	Greenville-Spartanburg International Airport	Greer, SC	Small hub	Proprietary learning mgt system
5	Gainesville Regional Airport	Gainesville, FL	Nonhub	Visit to peer airports
6	Dallas-Fort Worth Intl Airport	DFW Airport, TX	Large hub	Live ATC and driver simulator

Case	Airport	Location	Airport Size	Practice
7	Charles B. Wheeler Downtown Airport	Kansas City, MO	Reliever	Ops presentations, identify animal remains, Part 139 quiz show
8	Oregon Dept of Aviation	Salem, OR	GA	Challenges and need for training tools

Case	Airport	Location	Airport Size	Practice
9	Brooksville-Tampa Bay Regional Airport	Brooksville, FL	GA	Free FDOT Training and webinars
10	South Bend Intl Airport	South Bend, IN	Nonhub	Airport exchange program

Case	Airport	Location	Airport Size	Practice
11	Aspen-Pitkin County Airport	Aspen, CO	Nonhub	Departmental cross-training program
12	Green Bay Intl Airport	Green Bay, WI	Nonhub	Learning-styles based adaptive training
13	Ohio State University Airport	Columbus, OH	Reliever	UAS use

An aerial photograph of an airport is shown, with a large blue rectangular overlay in the upper half. The overlay contains the title and presenter information in white text. The background image shows the airport's runways, taxiways, parking lots, and terminal buildings. A white commercial airplane is visible on the runway. The surrounding area includes a large body of water on the left and a city or town on the right.

Airport Case Example: Crater-Lake Klamath Regional Airport

Mr. Joseph Goetz C.M., A.C.E.

Alternate Methods for Completing Recurrent Training

➤ What are we trying to accomplish?

- Engaging all learning styles (auditory, visual, kinesthetic)
- Making repetitive training fun
- Retention of learned material
- Proof of training's effectiveness
- Not just another slideshow

➤ Alternate methods

- Jeopardy
- Scavenger Hunt
- Training Worksheets/Quizzes
- Incentives

Runways & Taxiways	Airside & Landside	Air National Guard	Airport Boundaries	Corporate and G.A.
<u>10</u>	<u>10</u>	<u>10</u>	<u>10</u>	<u>10</u>
<u>20</u>	<u>20</u>	<u>20</u>	<u>20</u>	<u>20</u>
<u>30</u>	<u>30</u>	<u>30</u>	<u>30</u>	<u>30</u>
<u>40</u>	<u>40</u>	<u>40</u>	<u>40</u>	<u>40</u>
<u>50</u>	<u>50</u>	<u>50</u>	<u>50</u>	<u>50</u>

Question 3 - 30

- What type of aircraft arresting systems are installed on RWY 14/32 and how far down the runway are they located?

Question 4 - 10

- The easiest way to find the boundaries for airport property would be to look at this.

Airport Familiarization Scavenger Hunt

#2

You visit me often in fall and spring
To pursue those on the wing
But right now my level is on the downswing

Airport Familiarization Scavenger Hunt

Location 2 Questions

1. What is the full name of the organization that owns this property?
2. What is the specific purpose the organization uses this property for?
3. Please describe any tasks that airport personnel may undertake on or adjacent to this property.

Actionable Findings

The National Academies of
SCIENCES • ENGINEERING • MEDICINE

TRB
TRANSPORTATION RESEARCH BOARD

ACRP | AIRPORT
COOPERATIVE
RESEARCH
PROGRAM

Actionable Findings

- 1. The development of training curricula, methods, timelines, etc. is best accomplished from the employees' perspective.**
- 2. Employees benefit from receiving a certain minimum duration of training and then receiving additional training time as necessary to build required proficiency and knowledge levels.**

Actionable Findings

- 3. Conduct a training needs assessment for both employees and the airport.**
- 4. Airport trainers benefit from a knowledge of individual learning styles and adult teaching methods.**
- 5. Asking employees to complete a learning styles inventory or assessment will enlighten trainers as to the preferred learning styles of employees.**

Actionable Findings

- 6. Employees benefit most when presented with engaging content that is easily accessible and meets all three learning styles (visual, auditory, and kinesthetic).**
- 7. Prioritize training with a sufficient budget.**
- 8. Having dedicated resources in the form of a dedicated training department, even if staffed by only one individual, is an option to be considered.**

Actionable Findings

- 9. Airports may consider additional sources of training, to include products offered by AAAE and ACI-NA, as well as team teaching with peer airports and mutual aid agencies.**
- 10. Although a significant portion of current operations training is conducted on the job, combining other methods can result in better employee learning and engagement.**

Actionable Findings

- 11. PowerPoint presentations are not innovative: they generally do not engage learners, and they tend to be viewed unfavorably by students.**
- 12. Consider the learner and develop a training program based on a needs assessment.**

Appendices Included in Report

- A. Several Sample Operations Employee Training Checklists**
- B. Sample Airport Operations Center Training Checklist**
- C. Sample Badging Training Checklist**

Conclusion

- **Each airport must determine training approaches that work well, considering training environment, budget, employee experience, and training objectives. There is no “one best way.”**
- **Innovative training approaches are just that – innovative. But employees deserve innovative training!**
- **Focus on your most important resource!**

ACRP is an Industry–Driven Program

- Managed by TRB and sponsored by the Federal Aviation Administration (FAA).
- Seeks out the latest issues facing the airport industry.
- Conducts research to find solutions.
- Publishes and disseminates research results through free publications and webinars.

Other Ways to Participate

Become an Ambassador. Ambassadors represent ACRP at events and conferences across the country!

Sponsor or become an ACRP Champion. The champion program is designed to help early- to mid-career, young professionals grow and excel within the airport industry.

Visit ACRP's Impacts on Practice webpage to submit leads on how ACRP's research is being applied at any airport.

Visit us online:
